is designed to offer options for teachers of 1s and 2s. With over 160 coloring and texture pages, more than 40 teaching ideas, plus a special holiday section, this book is a must-have resource for every classroom!

Our goal is to make this resource easy for you—the teacher—to use! Keep reading to find out how to use each element in this book to make the most of everything offered here!

## Coloring Pages

Toddlers & 2s are exploring and learning about their environment moment by moment. Some children will be learning to use crayons for the first time. Most children will scribble-color these pages. The simple statements at the bottom of each page explain the picture and will help you talk to your toddlers about God, His Word, and their world.

## Texture Pages

These pages are offered to help you do something more with your toddlers & 2s. These simple variations on coloring pages make them more engaging and are designed to be appropriate for the skill level of toddlers & 2s.

## Activity Pages

Each category in this coloring book includes two pages of activity ideas to reinforce the topic. These are simple ideas that you can do with the children in your class to help them explore and connect with the Bible truth you're teaching. Some activities will require some before-class preparation, so please read them in advance to make sure you have everything you need to use them in class.

Make the most of every opportunity with toddlers & 2s. Explore and create with them as you help them discover God's love.

God made my eyes.

Thank You, God, for my eyes.
