“HeartShaper allows the children to become a part of the story. A grandmother and preschool teacher told me one day that her 3-year-old granddaughter came home from church and told her how Jonah was swallowed by a whale (gulp, gulp) and then he was spit back out! She even did the sound effects, when she told her grandmother—the children get excited about the stories. I also love the *Heart Tugs* take-home.”

“HeartShaper is top-notch. The lessons are biblically grounded, activity oriented, and keep students enthralled from start to finish. The content is easy to navigate for even the novice teacher. When followed from toddler to preteen years, students come away with thorough biblical knowledge. I highly recommend it to all churches seeking to give their young people a wonderful understanding of the Bible from cover to cover!”
