

Retreat Highlights

This retreat offers a learning and healing experience you will never forget on the largest ship at sea, at less than half the cost of attending most conventions. Our past cruises featured pioneers and industry leaders such as Dr. Tiffany Field, Erik Dalton, Aaron Mattes, Paul St. John, Michael McGillicuddy, George Kousaleos, Ruth Warner and Anita Shannon. Earn 18 CEU's, NCBTMB and CE Broker, while cruising at sea.

James will be sharing updated Integrated Manual Therapy and Orthopedic Massage research and new techniques on complicated shoulder conditions, low back pain and advanced stage hip & shoulder capsular release techniques. Kerry will be sharing an introduction to Total Body Balancing (TBB) that uses long levers (arms, legs, head/neck, or torso) and rhythmic mobilization to release tension in the muscles, fascia, joints, and ligaments to improve circulation, nerve and energy flow. In addition to hands on education and all cruise activities, participants will be invited to a special awards presentation at our private cocktail party, and island tours to enhance social interaction with pioneers in the healthcare industry.

Seminar Topics

SEMINAR FEATURED PRESENTERS

James Waslaski is an Author and International Lecturer who teaches approximately forty seminars per year around the globe. He has served as AMTA Sports Massage Chair and FSMTA Professional Relations Chair. He has presented several times at the Florida Chiropractic Physician

Conference and at the College of Sports Medicine. James has developed eight Integrated Manual Therapy and Sports Injury DVD's. His book, Clinical Massage Therapy: A Structural Approach to Pain Management, was published by Pearson Education in 2011. James is a Certified Personal Trainer with NASM. He presents at state, national and international massage, chiropractic, and osteopathic conventions, including keynote addresses at the FSMTA, World of Wellness, New England Regional Conference, the World Massage Festival, and Australian National Massage Conventions. His audience includes massage and physical therapists, as well as athletic trainers, chiropractors, osteopaths, nurses and physicians. James received the 1999 FSMTA International Achievement Award and was inducted into the 2008 Massage Therapy Hall of Fame.
