CARE AND MAINTENANCE

How to Empty Water

After a playing for a while, water will accumulate in U-bend #1

1. Remove mouthpiece from *BFB Nat*™
2. Rotate trumpet front to back to empty water (as shown)

***Ragnar's Tip:** "Remember! Gravity is Your Friend!"

How to Clean Your *BFB Nat*™

Soak your *BFB Nat*™ in warm soapy water (use mild liquid dish detergent) and run a trumpet snake* through the lead-pipe and first U-bend. Rinse by running warm water through instrument (empty as shown above) and pat dry with a towel. Clean your mouthpiece in the same manner, using a mouthpiece brush*. When not in use, store your *BFB Nat*™ in carrying case.

**available at your local music store*

About the *BFB Nat*[™]

- Designed for beginning brass students, the *BFB Nat*[™] is light and easy to hold
- Pitched in C (A=440), the *BFB Nat*[™] is suitable to play with other general music classroom instruments such as Orff instruments and recorders
- With design input from music acousticians, the *BFB Nat*[™] plays with a rich and authentic sound
- The *BFB Nat*[™] is manufactured with FDA compliant ABS in the USA, meeting NSRL levels of Prop 65
- Durable construction, minimal maintenance, and no moving parts (that can become damaged or lost) means many years of use
- Used with the *Brass for Beginners*[®] curriculum, *Around the World in Twenty-One Trumpets*
- Can also be used as a supplementary teaching tool for trumpeters at all stages of development
