# Introducing the Signlink Poster Display Range.

The poster display range is comprised of numerous models ranging from low cost basic models for internal use through to heavy duty robust models. These are designed for heavy wear and tear situations such as pubs, clubs etc.

The various models have been widely used and specified in large organisations such as hospitals, universities and Government buildings. We have attached further details of the product range for your information.

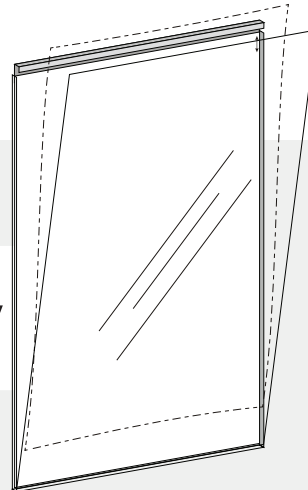

- ① Sign Frame
- ② Clear Polycarbonate Cover
- ③ Paper Insert

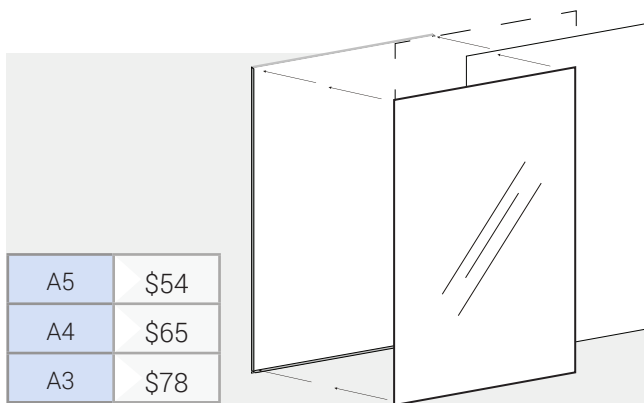

## Denier Poster Display

A5	✓
A4	✓
A3	✓

The Denier poster display is the latest addition to the Signlink range. It has a slimline design, functional and very economical. The top frame moves up to release the clear plastic cover. It is suitable to be made in custom sizes. We stock the standard sizes of A5, A4 & A3. All other sizes are made to order.

A5	\$54
A4	\$65
A3	\$78

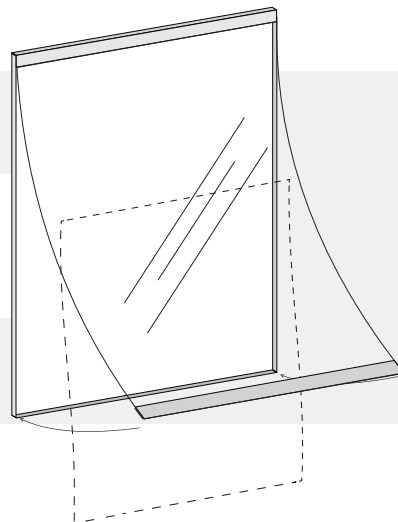

All prices are exc. GST

## Avant Garde Display

The Avant Garde poster display has an extremely slim line appearance with a removable clear cover. Posters are housed behind a magnetically attached clear cover. We supply the cover without the border. Sign companies need to print the borders to the clear cover. The cover is removed via a supplied suction cap. The Avant Garde poster display is also available in a form which incorporates a separate header panel. Standard sizes available include A5, A4, A3, A2 & A1

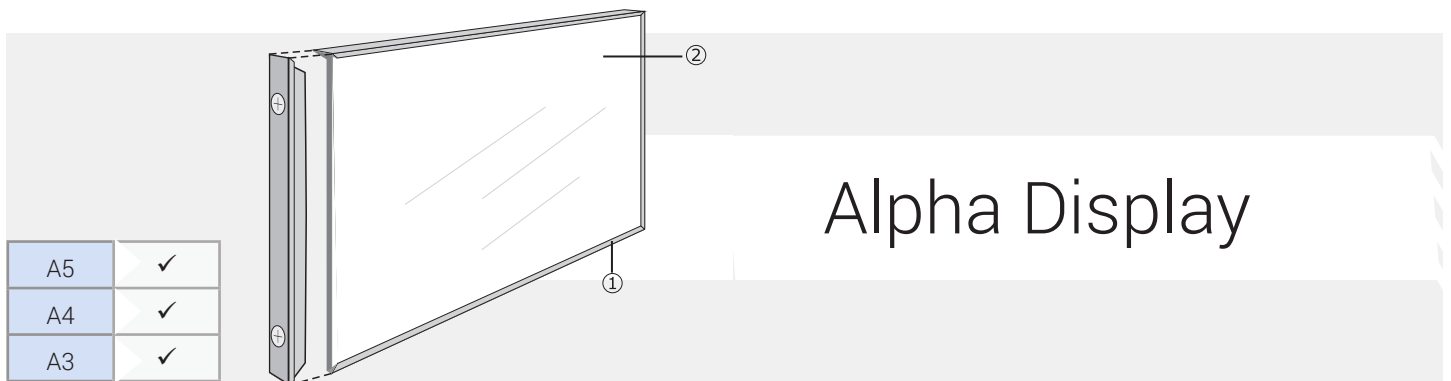

## Avant Garde Pivot

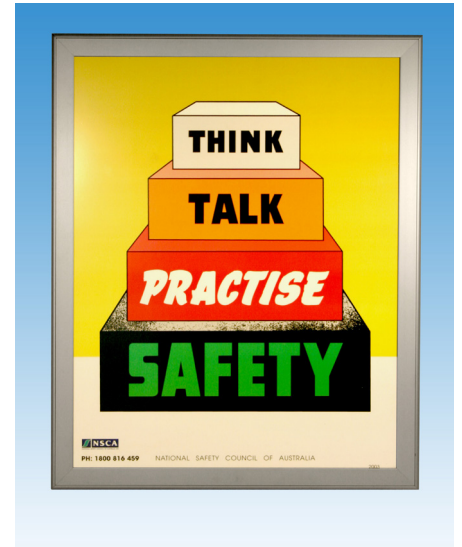

A5	✓
A4	✓
A3	✓

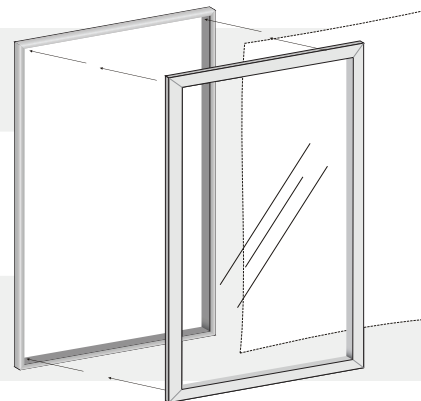

The Avant Garde pivot poster is an attractive, functional display system. The cover hinges from the top (or side). This model is often the preferred option for institutions. It has been widely specified for use in many Australian Universities around the country. It can be arranged with interchangeable headers and footers as required. The Paramount and Displaymax models can also be set up with pivoting covers.

The alpha poster display is another low cost unit which offers edge to edge display. It can also be set-up as a security unit as the top frame can be screwed fixed into place. Alternatively it can attach magnetically. It is often used to display evacuation maps and similar diagrams. Standard finish in Satin Natural Anodised Silver. Standard sizes are A5, A4 & A3.

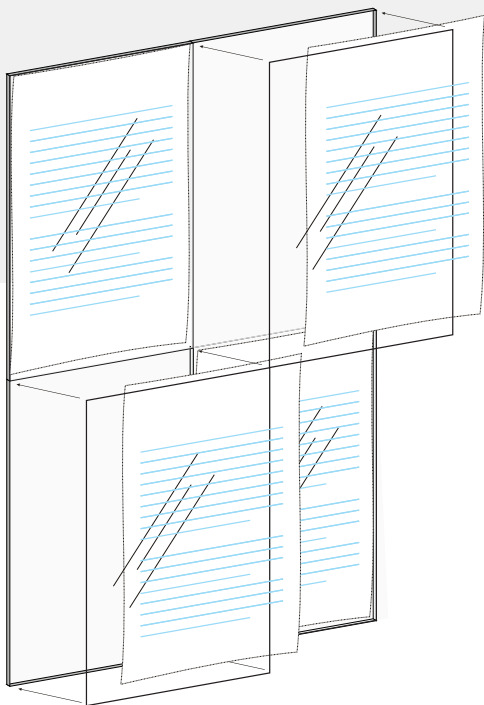

### Panorama Display

The Panorama Poster Display is designed as a robust model suitable to be supplied on locations such as pubs and shopfronts, which require a display unit that will cope with wear and tear as well as being a secure display.

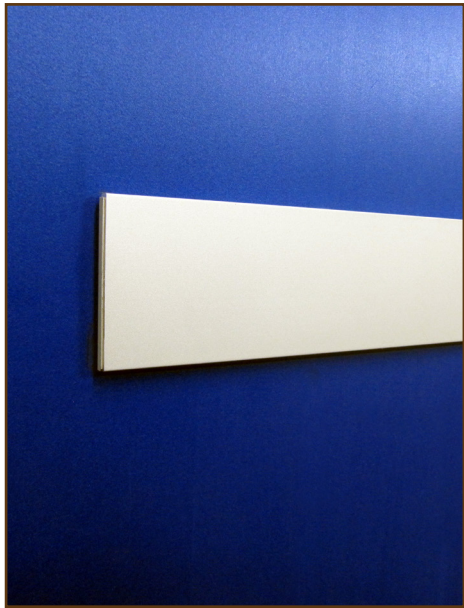

It is supplied with a removable aluminium cover plate which is held in place with powerful, aggressive magnets. The face is generally 3mm thick polycarbonate. The cabinet finish is satin natural anodised silver. The fixing can be by means of our heavy duty split batten mounting rails which mount into a recess at the back of the cabinet.

## Custom Model

We can supply models which display multiple sheets. The photo above is a Displaymax model with 7 A4 sheets with individual magnetic covers. The sign could also be with individual pivot covers and also incorporate header and footer panels to suit your requirements.

# We also supply:

Door Plates

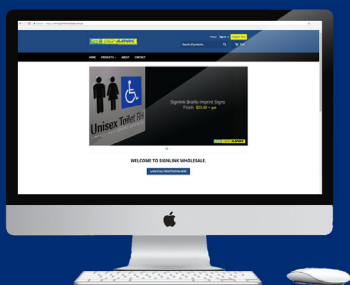

Braille Signs
