Size: 1800x800 mm

Note: Please ignore any pre-drilled holes or nut inserts that maybe present in your top(s). They will not match your particular table/desk base and woods screws will be required to be screwed directly into the underside of the top.

Note: It is important to fully tighten all bolts and screws before attaching the top(s) so that the frame is sufficiently rigid. Failure to do this may affect stability once the tops are attached.

Join Leg Brackets to each Leg using screws to secure them, as follow.

Join 2 L-Bracket through each 1515mm Beam and 1 L-Bracket through each 1150mm Beam.

Securely connect each Beam to each Beam Bracket. Screw to secure.

Insert Hex Nut on each Beam Bracket.

Position as presented, and proceed to screw to ensure each corner of the frame.

If this bolt does not drop into the joint use the Allen key to screw it all the way in so that it creates its own thread.

This will ensure a nice, tight joint.

For the 2 central legs, attach as presented, using T Beam Bracket.
