

## ASSEMBLY INSTRUCTIONS

# Mondo Lounges Range

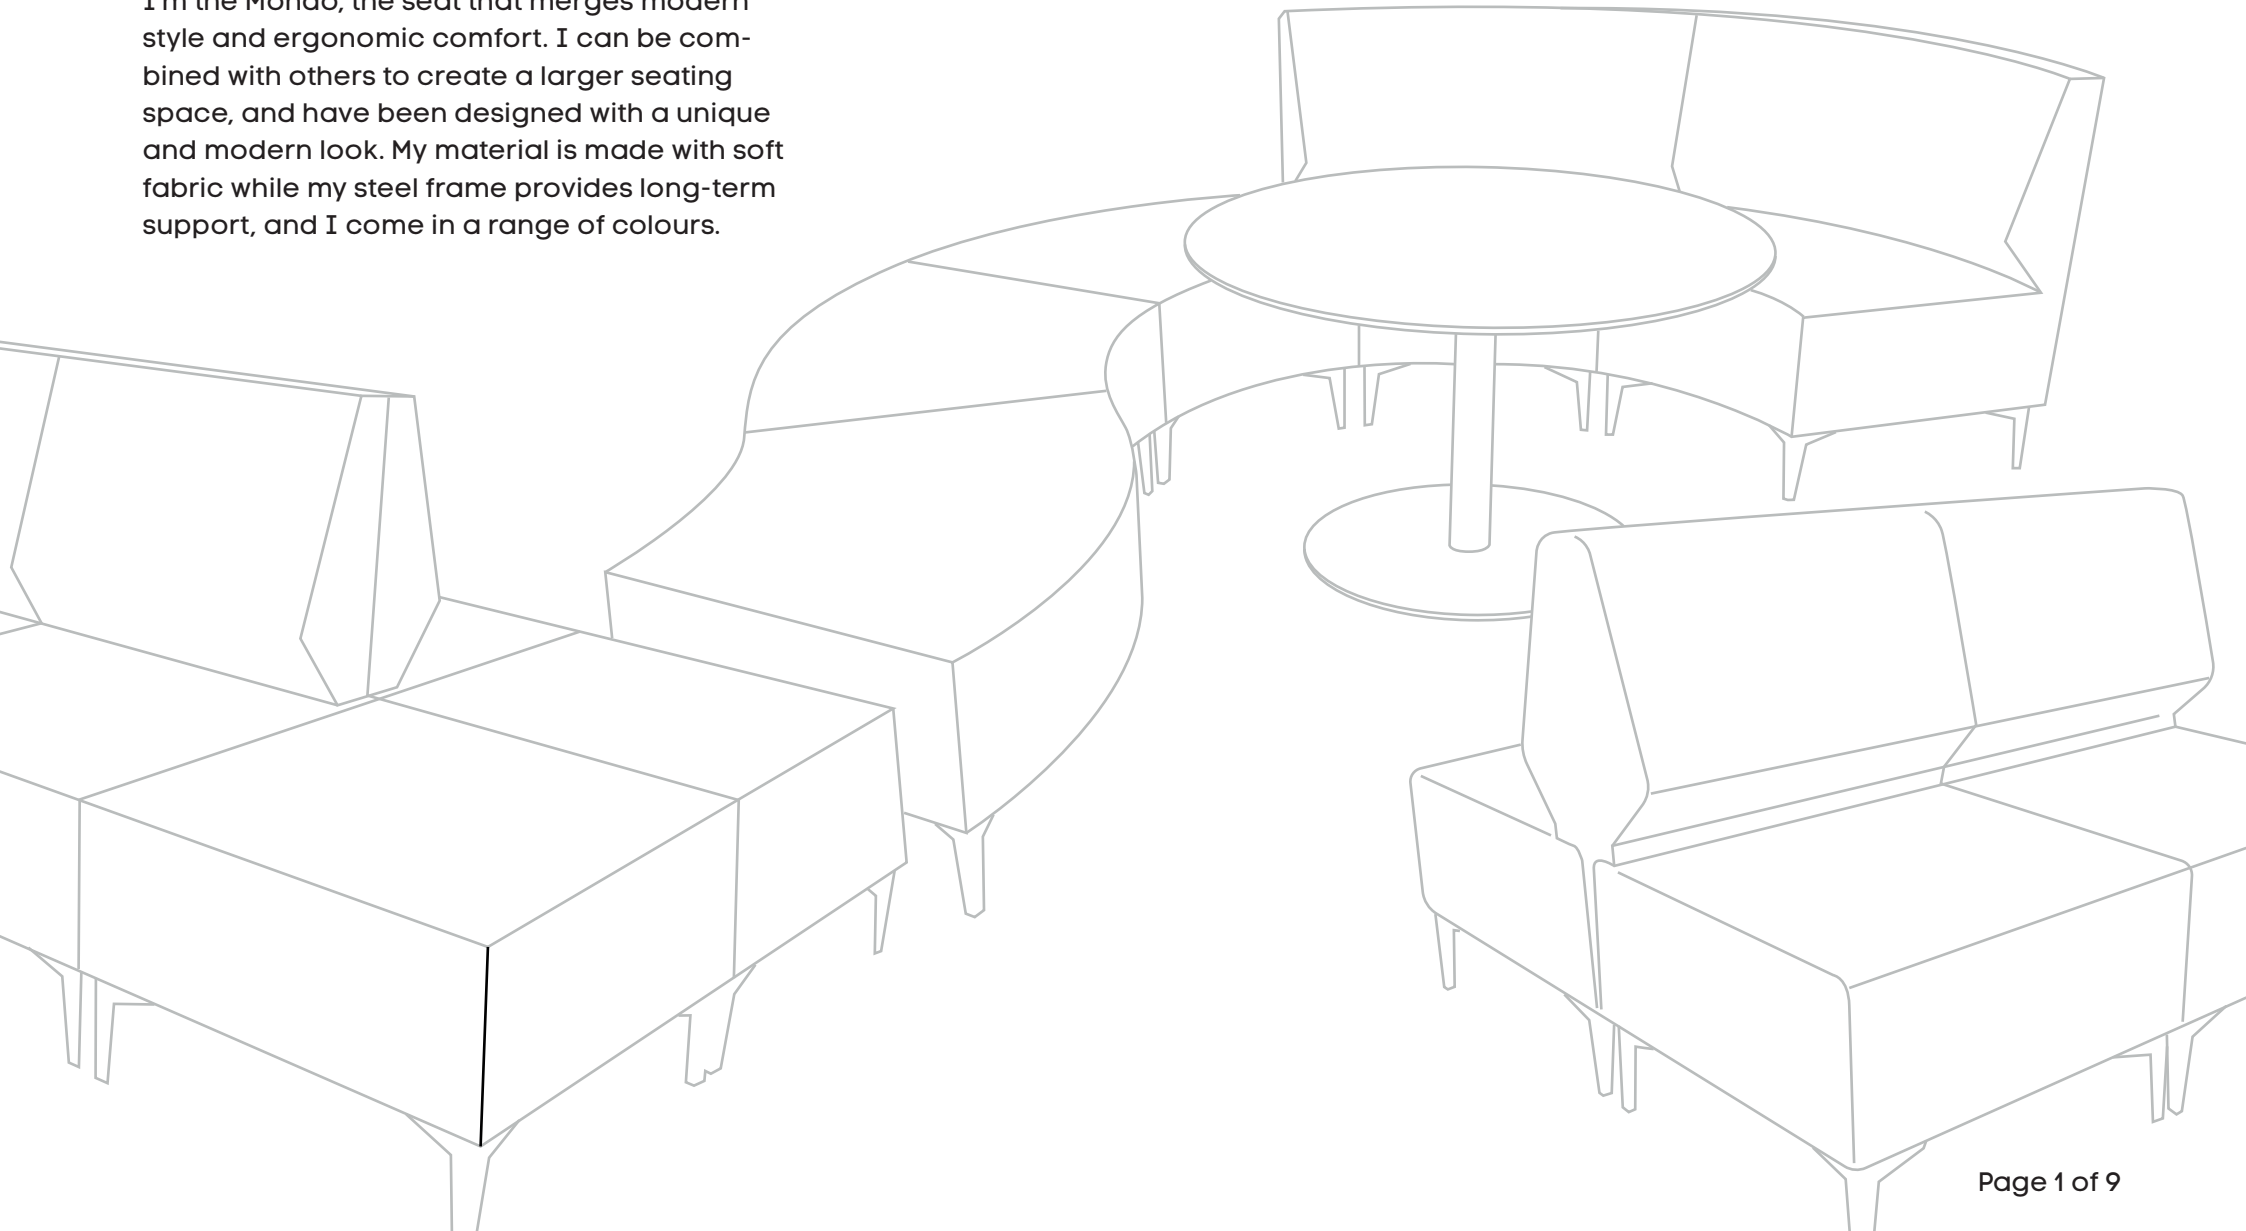

I'm the Mondo, the seat that merges modern style and ergonomic comfort. I can be combined with others to create a larger seating space, and have been designed with a unique and modern look. My material is made with soft fabric while my steel frame provides long-term support, and I come in a range of colours.

Mondo lounges can be used as individual pieces or combined to create more complex and adaptable seating arrangements to meet all needs and spaces. On the following pages, we will show you how to assemble the modules individually. If you have purchased a set of Mondo lounges to combine them, we will also teach you how to connect them once each one is fully assembled.

### These are the possible individual modules.

2 Persons required for installation

Power Drill tool is required.

Experienced assembly is required. User will need to drill wood screws into underside of desk. No pre-drilled holes are provided for this system.

## Connecting individual Mondo modules together

Now that you have assembled all the individual modules, the only thing left is to connect them! Here's how to do it.

If you purchased a Mondo combination start by displaying the desired combination at its final placement and bring all modules together.

Open the interlock connector by lifting its top up, insert the hook into the lock on the next Mondo module and secure both together by closing the connector top.
