

# Nest Office Booths.

jason.l

Revitalize your workspace with our Nest office booth range, where functionality meets style effortlessly. Choose from a spectrum of Echo wall panel colors and pair them with or without internal furniture options. Mix and match with ease to create a customized look that suits your taste.

Experience a breath of fresh air within the booth, thanks to turbo and silent fans that eliminate any hint of stuffiness. Take control with smart features, adjusting fan speed, lighting brightness, and colors at your fingertips. Our redesign includes sound-blocking door frames and elegant curved corners, seamlessly blending functionality with aesthetics.

Whether you opt for a vibrant mix of Echo wall panel colors or a more subdued palette, all options are in stock and ready for delivery within 5 – 7 business days. Step into the future of productive and stylish office spaces, where you dictate the ambiance. Your redefined workspace is just a few choices away.

Nestle into me

## Specifications

Prioritizing functionality and noise reduction. The Nest Booth rivals industry leaders with an impressive 30dB noise reduction. For extended comfort, we've integrated smart adjustment panels, ensuring adaptability with fan speed, light brightness, and color.

The booth's interior panels and furniture are interchangeable, extending its useful life and maintaining a fresh aesthetic.

Additionally, the integration of power and USB ports, including USB A and USB C, adds convenience and adaptability. With JasonL's Nest Booth range, expect a sophisticated and functional workspace that not only meets but exceeds expectations.

Noise Reduction (dB)	30 (±1) DB
Framework	Aviation Aluminum (Powder coating-matte)
Glass(Front & Rear)	Sound control laminated glass (5 + 5 mm)
Fresh Air System	Turbofan with adjustable air speed
Wall/Ceiling/Floor	45mm, made of 2-layers steel plate & plywood
Interior Acoustic Panel	Replaceable interior panels made from PET sheets which are laminated with polyester fabric
Integrated Socket	Max 220v 10A, Socket * 2, USB-A * 1, USB-C * 1
Power	110V-220V, 50-60HZ
Smart Adjustment Panel	Can change the fan speed, light brightness, and light color

## Features

### Tailor your experience

Complete environment control system, featuring a multi-function adjustable switch that allows users to customize ventilation speed, light strength, and temperature.

### Low-Noise Ventilation

Our low-noise air ventilation system ensures necessary air circulation within three minutes while maintaining the booth's soundproofing quality.

### Movable Design

Concealed wheel mobility system makes it portable and versatile—easy to install, dismantle, and move.

### Enhanced Connectivity

Includes a '2GPO + USB A and USB C' feature, providing additional connectivity options to enhance your overall experience.
