Sleep Envie mechanisms are warranted for 1 year. In case of defects in material and workmanship during this period, replacement parts will be supplied.

CARE AND CLEANING INSTRUCTIONS - Fabrics, Polyurethane, Poly Vinyl Chloride

Regular vacuuming with a soft upholstery attachment and occasional brush, such as nylon lint brush will help to remove soil and prevent the embedding of dirt and grime between fibers which can increase abrasion and wear. This will keep microfiber looking crisp and new. Avoid exposing sets to direct sunlight which may cause the fading of the colours. Attend to spots as soon as possible. Don't wait for stubborn stains to build up. Stains and spills should be removed immediately. Use a wet cloth with tepid water and mild soap. Be careful not to rub in and spread the stain.

NOTE: Do not use solvents, bleach or cleaners with high PH solutions, as they will permanently discolour and/or damage the fabric.

WARNING: Sleep Envie strongly recommends using the service of professional cleaners to take care of your dog's bed. Using inadequate cleaning products, abuse, negligence, exposure to the sun, extreme heat or bright lights will void the product warranty.
