

LEVIVUM[®]

USER GUIDE

DIRECTIONS FOR DAILY USE

Levivum is intended as a once-daily natural supplement, but safe enough to be taken up to three times a day for those seeking additional relief.

While the Levivum was designed to be taken in the morning, some people have found relief taking Levivum at various times throughout the day and night.

Levivum comes in two forms, Premium Liquid Formula and Slow-Release Capsules, see different dosing instructions below...

- ☐ Take one 2 oz. bottle of Premium Liquid.
- ☐ For capsules, take three pills.
- ☐ Both the Premium Liquid or capsules can be taken with or without food.

For those with digestive issues or Niacin-sensitivity, take ½ Liquid Formula bottle followed by the remaining ½ bottle 30 minutes later. Or try mixing with your favorite smoothie.

LEVIVUM[®]

WHAT TO EXPECT - Levium's natural active ingredient blends were designed to be fast-acting but also build over time. Some customers experience the effects right away. Others report profound effects after a week or more of continued use as NPY levels build.

NIACIN FLUSH WARNING - Levium contains Niacin which can produce harmless Niacin Flush, a heat or tingling sensation that may result in mild skin reaction including redness. Flushing occurs due to the dilation of blood vessels and increased blood flow. Niacin acts as a transportation vehicle for other ingredients in Levium and has anxiolytic benefit. Flushing is a temporary, harmless, and non-allergic reaction. Flushing diminishes with continued daily Levium use. Levium Capsule customers report less niacin flushing.

HOW LEVIUM WORKS - THE SCIENCE OF NPY

All of Levium's Doctors and Neuroscientists had something in common...their medical and neuroscience research focused on anxiety and its relation to NPY, The Resilience Neurotransmitter.

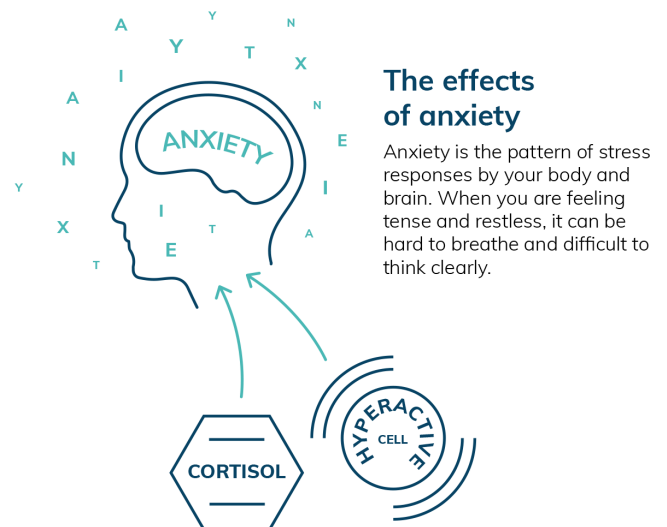

The more NPY (neuropeptide-Y) one has, the more "resilient" one is to both stress and anxiety.

NPY counterbalances the stress-chemical, Cortisol and mediates fear responses in a primitive part of the human brain structure called the Limbic System.

Levium works by inhibiting the DPP4 enzymes that usually degrade NPY.

The benefits of Levium build over time as Cortisol levels balance out and the brain's reserves of NPY—The Resilience Neurotransmitter—increase.

But for those who need quick relief...

The chemical reaction to stress

- 1 Excess cortisol** - your body goes into fight or flight mode, which makes you tense and reduces blood flow to your brain
- 2 Hyperactive neurons** - your mind races with negative thoughts and you can't stop worrying

LEVIVUM®

Levium's fast-acting individual ingredients have been clinically demonstrated to offer decreased stress and anxiety "on the spot and on the go".

We are proud to say that Levium is the only safe alternative to prescription medicine specifically focused on enhancing the brain's own reserves of NPY.

GLAUSER LIFE SCIENCES INC.

Glauser Life Sciences, Inc. develops revolutionary tools that help those with Central Nervous System (CNS) disorders—working with a talented team of expert scientists, doctors, and business leaders.

The Levium formula was developed by neuroscientists, professors, and lab directors at top American universities.

Dr. David Kipper, M.D. - UCLA: Dr. Kipper co-founded the Medical Group of Beverly Hills. He is the author of the book, *The Addiction Solution* and host of his own weekly interactive Radio Program on K-ABC.

GLAUSER LIFE SCIENCES is based in Los Angeles, California.

LIVE LIGHTER TIPS

LEVNIUM®

❑ REMEMBER, your brain has everything it needs to counteract stress naturally. But you can help by protecting NPY - “The Resilience Neurotransmitter”.

❑ Use MINDFUL EATING and PROPER NUTRITION to stay nourished and keep blood sugar levels balanced during the day.

❑ EXERCISE. It gives your body natural pleasure-producing endorphins and has been proven to decrease stress.

❑ Get plenty of SLEEP.

❑ Learn to MEDITATE, take control of your mind.

❑ LEARN more about natural nutraceuticals, cell-enhancing supplements that affect the root causes of stress and related issues.

LEVIVUM®

WHAT'S IN LEVIUM

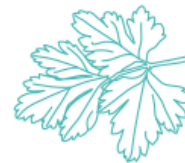

BENEFITS OF LEVIUM

- ▽ Reduces stress
- ▽ Reduces anxiety
(including social anxiety)
- ▽ Revitalizes mind
- ▽ Improves focus and
decision making

Levivum's proprietary flavonoid blend includes

Apigenin · Luteolin · Resveratrol · KSM-66 Ashwagandha
B vitamins · Amino acids

LEVIVUM®

NATURAL INGREDIENTS

Made with natural active ingredients, Levium is backed by the clinical research of Levium's Doctor and Neuroscientist Team.

A nutraceutical, Levium offers an FDA-compliant formula. It's also safe for use with common anxiety and depression prescription medications like SSRIs & Benzodiazepines.

These safe ingredients offer more "resilience" during stressful times, even for those who don't normally think of themselves as "anxious" people. But for those with chronic issues, the benefits build over time.

Levium's base ingredients include:

- Apigenin (As Chamomile Flower Extract)
- Luteolin (As Chrysanthemum Leaf Extract)
- Resveratrol

These ingredients have been shown to inhibit the breakdown of NPY by buffering the DPP4 enzymes that usually degrade it. That creates more 'resilience' to stress and anxiety, the effects increasing over time as NPY stores increase and cortisol levels balance out.

Levium also includes:

- Highest Concentration Ashwagandha (KSM-66)
- Vitamins & Amino Acids
- GABA
- Magnesium

These ingredients are proven to offer a significant reduction in stress and anxiousness on the spot—amongst other benefits like reduced inflammation, increased blood flow to the brain, and increased energy levels.

LEVIVM®

LEVIVM CAPSULES + FREE SHIPPING FOREVER

No Preservatives | No Sweeteners | No Carbohydrates | Zero Calories | Eco Friendly Packaging | Free Shipping for Monthly Delivery—Always

Same Natural Active Ingredients For Anxiety Relief. Whole New Delivery. Live Lighter!

BioPerine® is a registered trademark of Sabinsa Corporation

NEW CAPSULE FORMULA:

Same Natural Active Ingredients—No Liquid, No Preservatives, No Stevia, No Sweeteners (Supplement Facts Above, Less “Other Ingredients”)

FREQUENTLY ASKED QUESTIONS

Q: Do I need a prescription to buy Levium?

A: Levium is a nutraceutical with all-natural actives and does NOT require a prescription.

Q: Is Levium safe to take with prescription medications such as SSRIs and Benzodiazepines?

A: Levium can be taken with an SSRI or Benzodiazepine. Levium was specifically designed to lack contraindications with antidepressants, including SSRIs or other anti-anxiety medications.

Q: How many times a day should I take Levium?

A: Levium is formulated to be taken once or twice daily. In cases of severe stress, Levium can be taken as needed.

Q: Is Levium safe for children?

A: While Levium is very safe, it is specifically formulated for adult use only.

Q: Is Levium safe to travel with?

A: Yes. Levium comes in a convenient 2 oz. bottle that is allowed on all airlines. Levium Capsules contain no liquid and are travel-friendly. Take your entire month's supply with you wherever you go.

Q: Where can I buy Levium?

A: Currently, Levium is only available for purchase on our webstore or on amazon.com. Retail locations will carry Levium in the near future.

Q: Are there any negative side effects from Levium?

A: No. Levium has no known negative side effects. Niacin flush is not considered a side-effect as it is a harmless, and actually beneficial, increase in blood flow. Levium Capsule users report less flush.

Q: Does Levium contain any artificial sweeteners?

A: No. Levium is all-natural and contains no artificial sweeteners. Levium Capsules have no sweeteners.

TESTIMONIALS

"Able to come off meds!! I've been able to wean down off my anxiety meds. Almost off completely. I take this daily and usually take essential oils for anxiety as well. So glad I found this."

- Rebekah A.

"I wanted to follow up and let you know that my 19 year old son has been through numerous prescription medications for anxiety—all of which knocked him out for long periods of time. I've also tried several other natural alternatives—we've done oils (including CBD) and many many other naturally derived supplements. Nothing has ever worked until now. The first day he said "I think these things are working." I almost cried because he had never been able to say that about anything else we had tried. This product is a life saver and now a staple in our house. Thank you, thank you, thank you for your investment of time, energy, emotions and resources to bring a natural solution to a problem that plagues and hinders so many. I tell everyone about Levivum!"

- Aundrea D.

"I am a big time skeptic and would never have ordered anything like this, but someone told me about it and I figured I would give it a try. My daughter with autism and anxiety really needed something and I didn't want prescription meds.. It works. It worked right away and now over a month later my daughter has a better quality of life. I order the biggest package I can get because I never want to run out."

- V.S.
