

Taking Successful Saddle Fit Photos

Taking the correct saddle fit pictures will greatly help with our fitting process!

Take 3 easy views of your horse:

1. Left profile (showing complete unobstructed view taken at a 90 degree angle)
2. Right profile (same as the left)
3. Looking down on the withers (might need to stand on a stool behind rump)

Tips:

- * Keep horses entire back in view
- * Do not take picture INTO sun
- * No shadows across back of horse
- * Stand horse on solid flat surface
- * Keep horses neck STRAIGHT in all photos
- * Take clear pictures with no blurring

Include RIDER NAME and HORSE NAME
Email photos to info@allsaddles.com or
Text photos to 203-557-3285 or 800-888-8721

Option for financing at 0% for 36 months on all saddles for qualified buyers. Ask for more details.
