

KNOWLTON 2024 COLLECTION

## | KNOWLTON 2024 COLLECTION |

Our designs emerge from a profound admiration for nature, balance, and art, serving as a testament to expression and our deep respect for beauty. Behind each piece lies a unique story, crafted not merely for function but, more importantly, to evoke emotion and curiosity. Consider the Joshua Dining Table, born amidst the breathtaking landscapes of Joshua Tree National Park, or the Pacific Credenza and Nightstand, inspired by the rhythmic dance of ocean swells during a voyage from Mexico to Tahiti.

Beyond reshaping forms and sight-lines, our focus extends to the integration of diverse textures, intricate carvings, and innovative materials. This collection introduces an exciting and fresh aesthetic to the industry; the meticulously implemented details – whether subtle or powerful – draw the eye and ignite a desire to physically feel them under your fingertips.

Versatility is the cornerstone of our approach, enabling a dining table to seamlessly transform into a console or side table, adapting to your unique vision. The potential for endless customization is supported by visual renderings upon request, offering a personalized touch to suit your preferences.

While our designs embrace a new vision, our unwavering commitment to quality and functionality remains. We are delighted to unveil our latest innovations, ensuring that each piece maintains the high standards synonymous with Knowlton Brothers. This collection, designed in collaboration with Sue Firestone, stands as a testament to our passion for timeless craftsmanship and inspired living.
