# Why Gardening for Kids?

**For children. For nature.  
For good.**

Here at Gardening for Kids, we are passionate about getting children outside and learning about the world around them. We're committed to encouraging children not only to engage with nature, but to be its advocate.

Since starting in 2016, our small family business has been the UK's only shop selling gardening products exclusively for children, and we have supported thousands of children to get growing for the first time.
