

AB7100

Enterprise Mixed Bill Value Counter

5 Counterfeit & Security Features

Our value counters come equipped with **5 possible ways to scan for suspicious bills** to give your bottom-line extra layers of protection. The AB7100 has all 5 of these: Ultraviolet (UV), Magnetic Ink (MG), Magnetic Thread (MT), Infrared (IR), and Dimension Detection (DD). With the AB7100, you'll be maximally protected against the latest tactics used by counterfeiters.

Calculates Total Value of Mixed Bills

As a mixed bill value counter, the AB7100 can **calculate the total value of mixed bills** of different denominations that pass through the machine without pre-sorting.

Counts Mixed Bills

The AB7100 is equipped with sheet **counting for any paper or polymer** bill that fits in the hopper. Thanks to the **adjustable bill guiders**, the AB7100 allows virtually any-sized bill* to pass through the machine, regardless of the currency. This implies that the AB7100 is capable of handling (for bill counting only) virtually all international currencies ultimately making it a **Universal bill counter** (including non-currency items like vouchers & coupons).

**Acceptable Document Dimensions (L x W): 3.94 x 1.97 - 6.7 x 3.15 in (10 x 5 - 17 x 8 cm)*

Sorts Mixed Bills

The AB7100 has sophisticated sensors that helps **sort mixed denomination bills**. Simply put, the mixed bills into the hopper, the machine will read the first bill that passes through the machine, and stop every time it sees a different denomination. Repeat this process until all your bills are sorted by denomination.

Captures Serial Numbers with Compatible Printer

As each bill is counted, the AB7100 captures each individual **serial number**.

The AB7100 has the option to purchase a compatible **printer (sold separately)**. With this printer, easily and instantly print all the counting details or complete list of serial numbers.

Compatible with MP20 Printer

Optional / sold separately

AB7100

Enterprise Mixed Bill Value Counter

3-Year Hassle-Free Warranty

We pride ourselves on the fact that AccuBANKER products are built to last more than anyone else in the industry. We take our commitment even further with our free **3-Year Hassle-Free Warranty** with the purchase of any AccuBANKER product. AccuBANKER's warranty process is simple! We will always try to help solve any issues we can via email, live chat, or phone; but if for some reason we are not able to, we will provide you with different options and the necessary steps to obtain service.

Bill Hopper Extension Clips (Included)

The AB7100 includes Bill Hopper Extension Clips (AccuClips) which extends the **hopper capacity up to 800 bills total**. These come included with purchase allowing you to stack more bills into the hopper for a more continuous operation.

Serial Number Recognition

As a value counter, the AB7100 generates detailed reports with **serial number recognition** listed on the easy-to-read **LCD screen**. The AB7100 is preprogrammed for USD to capture and report serial numbers and calculate the total value of the bills. For non-currency items, the AB7100 can count other international currencies as well as vouchers and coupons.

PC Connection & ABCashRoom Integration

The AB7100 makes it easy and simple to connect to your PC via USB cable. By connecting the unit to your PC, you can then export all the details of each count using our **ABCashRoom software application** (sold separately). This will give you the ability to see a breakdown of counts in real-time, save each count, and export as a PDF and print. With serial number recognition, you can improve your reporting and protect your bottom line.
