YEAR WARRANTY

AccuBANKER[®]
Cash Handling Security

Business Value

High ROI: Pays for itself by detecting just one fake \$100 dollar bill, one CC fraud attempt or fines

Plug-in and use: Requires no Cashier training

Detects “Bleached Bills”: Genuine \$1 and \$5s converted to \$20 and higher denominations

Compact Size: Can be placed next to POS / Register in the “line-of-sight” of the customer

Automates Process: Distances the store brand from “sticky” situations with technology instead of making a judgment call

Operational Features

Internal Watermark detection sensor

Internal Infrared detection sensor

Internal Magnetic sensor

Internal UV sensor

Audible and visual alarm

Automatic banknote feeding system

Currency Detection: US Dollars

Power Consumption	<3 Watts

Pallet Information

Dimensions	48" x 40" x 52"
Master Cartons Per Pallet	27
Boxes Inside Master Carton	8
Units Per Pallet	216

UPC Numbers

D490 097241584505

AccuBANKER's D490 Cash and Card Validator is an easy to use 2-in-1 counterfeit solution. The D490 saves you time, space, and money with its unique double feature design. Its two-story construction allows the user to detect counterfeit currency while validating credit cards, checks, or IDs. The D490 pays for itself by detecting just one fake \$100 bill or any credit card. Simply insert a bill into the detector's feeding channel and in less than a second the machine will alert the user whether the bill has passed or failed the authentication software. Place a credit card or ID card underneath the machine's UV light station and search the card for its appropriate security features.
