

Disabling Norton Security Auto Protect Feature

- 1) Right click on the Norton Security Icon on system tray, and click the "Disable Auto-Protect" button

- 2) Select "1 hour" for the duration and press "OK".

The dashboard will look like this once you remove the Auto-Protect feature. (Note the "You Are At Risk" notice)

After the hour has passed, your dashboard will look like this. (Note the green check mark "You Are Protected")
