SR-016

Multi Function Air Conditioner Remote User Guide

Product Description

SR-016 universal remote is designed to suit more than 10,000 models of air conditioner worldwide. With user friendly programs, it can be quickly set up and easy for use. The smart "AUTO" key gives you one key solution to turn on your air conditioner without selecting running mode, temperature, fan settings. Which means SR-016 will automatically chose right operation mode for you in all seasons. Also "G. COOL" and "G. HEAT" function keys let you rapid to gain the right settings to turn on the A/C with consideration of saving energy. The AUTOTIMER ON/OFF function makes your life much enjoyable when using the air conditioner. Using above intelligent functions correctly will reduce the power consumption to save your power bills. Please read this User Guide carefully before use the remote.

Model Code Set Up

1. Insert 2 xAAA (UM-4, R03) batteries in the battery compartment. The LCD clock appears, and you are ready to set up the remote.
2. Find the brand code from "Model Code List ".
3. Press SELECT key, the code on the LCD blinks. Enter 4-digit code you selected in. Code is confirmed.

Note: Try each code from the same brand one by one, until your remote can operate the air conditioner.

Auto Search Code setting

If you do not know the brand of air conditioner or you cannot find required brand from "Model Code List", please do the following steps:

1. Aim the remote control toward air conditioner, then press "SELECT" key for 5 seconds, brand code on LCD will flash and brand code is added automatically. The remote will emit signal accordingly. Once the indoor unit receives correct signal, you will hear a "beep". The air conditioner will be turned on. Then press any key to confirm immediately.
2. After turning on the air conditioner, try other function keys. If they do not work, repeat above steps until it is correct.

Clock Set Up

1. Press "clock" key, the clock on LCD will flash.
2. Press "TIME+" or "TIME-" key to adjust time.
3. Press "clock" key again or wait 5 seconds until the clock on LCD stops flashing. The time is set.

Using G. COOL and G. HEAT

Press "G. Cool" or "G Heat" key, air conditioner will be rapidly set in cooling or heating mode and turn on with right temperature (programming with consideration of both comfortable and energy saving)

Note: Temperature also can be adjusted by pressing TEMP "▲" or "▼" keys during "G. COOL" and "G. HEAT" mode.

AUTO key function

Press "AUTO" key, your air conditioner will be turn on with programmed smart mode. Which will automatically set up cooling or heating mode in summer and winter according room temperature, set fan speed in "middle" and swing in "auto".
Note: Temperature can also be adjusted by pressing TEMP "▲" or "▼" keys accordingly.

Set Up Autotimer ON/OFF

Timer on: (Can only be set up for using when the air conditioner is off.)
1. Press the "TIMER ON" key, the LCD displays the clock symbol ⏱ and time will be flashing.
2. Press "TIME+"or "TIME-" key to adjust start time for air conditioner automatically ON.
3. The time will stop flashing after 5 seconds. The LCD displays current time and clock symbol ⏱ . AUTO TIMER ON setting is complete.

Timer off: (Can only be set up for using when the air conditioner is on.)
1. Press the "TIMER OFF" key, the LCD displays the clock symbol ⏱ and time will be flashing.
2. Press "TIME+" or "TIME-"key to adjust the off time for air conditioner automatically OFF.
3. The time will stop flashing after 5 seconds. The LCD displays current time and clock symbol ⏱ . AUTO TIMER OFF setting is complete.

Notes

1. When remote in TIMER ON/OFF operation, ⏱ symbol appears and remote must aim toward air conditioner unit.
2. The remote has memory to keep your last AUTO TIMER ON/OFF settings. That means you can turn ON or OFF the air conditioner every day automatically on the same setting time without change settings.
3. To deactivate timer: You need press TIMER ON or OFF key twice accordingly.

Display Room Temperature

Press "ROOM TEMP" key, LCD displays current room temperature as a thermometer.

Attention

1. If the remote has not been used for a long time, remove the batteries to avoid leakage. When the LCD looks dim, please change batteries.(New and old batteries should not be used together) After the batteries are replaced every time, it is not necessary to set brand code again.
2. The manufacturer reserves the right to change the parameters and functions of the product.

Technical Parameters

Controllable distance : Large than 8 meters
Power supply voltage: DC 3 V
Battery model: Battery AAA(UM-4、R03)×2
Dimension: L127mm×W48mm×D22mm
Weight: Appro 66.5g (excluding batteries)
