## Super Soft Pocket Tees

Open Mind Apparel is dedicated to creating something new and unique in the apparel industry. Our product is a super soft pocket tee shirt that is printed with a themed design inspired by free and creative thinking- "Open Minds".

Our garments are printed with an oversized original design on one or both sides of the garment using environmentally safe water based inks. The print covers most of the body of the shirt and even prints over the seams. The pocket is fully printed with a matched design and then individually sewn onto the body of the shirt. The sewing of the pockets and the printing are proudly done in the USA. The artwork and photography used is created by various experienced, skilled artists.

Due to the unique nature of how our garments are produced please expect some variation within each batch of shirts.
