GLASS SYSTEMS

HOT GLASS SYSTEM

The **finum**® glass systems are equipped with perfectly matching permanent filters – a simple and elegant solution for individual tea brewing. Each system comes with a hat to prevent heat loss and to serve as drip-off tray after brewing. The double-wall glass keeps your drinks hot longer.

Cool Touch: The Hot Glass System is the solution for everyone who wants to keep fingers cool while keeping the drink much longer hot – The double-wall insulates hot and cold beverages alike with yet a second effect. No more damaged surfaces through wet vapor-film rings or heatmarks as the double wall keeps them away. No coaster is necessary anymore!

Hot Design: Equally equipped with our stylish tea hat and permanent filter it allows you to enjoy your tea individually. The hat serves as a drip off tray for the filter!
