

## DAILY IN-SERVICE INSPECTION OF PEWAG CHAIN SLINGS

### Inspect Chain Slings On A Regular Basis!

If any of the following defects are found, withdraw the sling from service and refer to a competent person:

- Wear, distortion, cracking, corrosion, discolouration due to excessive exposure to heat, stretched or bent chain links and damage to any other part of the sling.
- Damaged or missing safety catches or triggers.
- Illegible markings or missing ID tag.

MAINTENANCE REQUIREMENTS ARE MINIMAL. KEEP CHAIN SLINGS CLEAN AND PROTECT FROM CORROSION
