AIA COURSE #: 082416HSWDCOF (SESSION # PROVIDED WHEN CLASS IS SCHEDULED)
IDCEC COURSE #: CC-105720 (SESSION # PROVIDED WHEN CLASS IS SCHEDULED)

DESCRIPTION: Removing The Fiction From Friction CEU is designed to provide valuable information on why COF ratings cannot guarantee slip resistance of a floor and how industry standards are easily and often misinterpreted. We will explore the fine print of OSHA, ADA, B101 and A137.1 industry standards, identify the various test methods used to get results and identify what those results actually mean to properly specify the right products for the right applications.

LEARNING OBJECTIVES: The main point to take away from this course is setting realistic expectations for yourself and your customer regarding the slip resistance of a floor. At the end of the course attendees will be able to: 1) Understand the complexities of slip fall accidents 2) Have basic knowledge of testing methods 3) Understand what industry recommendations are and what the values actually mean in terms of performance 4) What to look out for before making decisions on specifications.

PRESENTATION: PowerPoint presentation with images and technical information. No printed handouts will be given out.

A/V NEEDS: Electrical power, projector and screen for a PowerPoint presentation. Presenter will bring a laptop with VGA cable input or a flash drive. Please advise before scheduling if HDMI or other inputs are used.
