- Laminated edge and edge profiles
- Underside polishing for bar tops
- Threshold and shower jambs
- Lead times will vary based on final scope of work

Test Description	Test Method	Result
Breaking Strength	ASTM C648	>1500lbf
Compressive Strength	ASTM C170	>20,000psi
Abrasion Wear	ASTM C501	130-220
Thermal Expansion	ASTM C531	1.2x10 ⁻⁵
Water Absorption	ASTM C97	<.05%
Flexural Strength	ASTM C88	4500-8000
Stain & Chemical Resistance	ANSI Z-124.6	No Effect
Flame Spread	ASTM E84	Class 1/A
High Temperature Resistance	ASTM C484	No Effect

Designed to define low-emitting materials suitable for environments where people, particularly children and sensitive adults, spend extended periods of time. GREENGUARD Gold Certified products can be used to earn valuable credits in the CHPS Best Practices Manual for K-12 schools, the US Green Building Council's LEED® Green Building Rating Systems, the Green Guide for Healthcare, the NAHB Green Building Guidelines, Green Globes, Regreen and many other building codes, standards and specifications.

This standard establishes minimum public health and sanitation requirements for materials used in the construction of commercial food equipment. The requirements of this standard are intended to ensure that the composition and finish of food equipment materials are such that a material will not adulterate food nor render food equipment difficult to clean and sanitize.

E-QUARTZ products are made from 90-95% quartz and 5-10% resin depending on color and are intended for interior use only. E-QUARTZ products should not be stored outdoors in areas subject to heavy UV exposure.
