## Emser Tile Welcomes Tom Enright to Leadership Team

LOS ANGELES (OCTOBER 27, 2022) – Emser Tile, leading designer and producer of the world’s finest tile and natural stone, is pleased to announce Tom Enright as the newest member of the Leadership Team. Enright will serve as Vice President of Commercial Sales and brings several decades of invaluable experience to the role.

“We are thrilled to have Tom join our team and lead our commercial business,” said Carl Delia, President and CEO at Emser Tile. “We see a lot of growth ahead for our company and Tom will play a strategic role in leading the charge. Emser is excited to learn and grow with Tom as he drives our initiatives and objectives forward in this ever changing market.”

*Tom Enright joins the Emser Leadership Team as Vice President of Commercial Sales*

Prior to joining Emser, Enright held several executive leadership positions including over 25 years’ experience within the flooring industry. Most recently, Enright served as President of Kompan Inc. Americas, a leading supplier of playground and fitness equipment, a post he held for over four years.

Enright is a graduate of Georgia Tech Scheller College of Business (1985) and of Georgia State University (1992) where he earned an MBA.

### **About Emser Tile LLC**

Emser Tile is the largest privately held designer and marketer of tile and natural stone products in the United States. Our principle offering includes an extensive line of ceramic, porcelain, natural stone and decorative products to service the design and product needs of our customers. Our products are distributed nationally through a company-owned network of local sales and service locations. The company’s products are used extensively in new home construction, remodel applications as well as commercial projects including multi-family housing, hospitality, shopping centers, office buildings and educational facilities. For more information, please visit [www.emser.com](http://www.emser.com) and follow us on [Facebook](#), [Twitter](#), [Instagram](#) and [Pinterest](#).
