**Emser Tile Celebrates 50 Years of Exceptional Design and Service**

*Strong culture, design-forward products contribute to company's evolution and success*

**LOS ANGELES** – Emser Tile, the leading designer, marketer and producer of the world's finest tile and natural stone, is honored to celebrate 50 years of business with its associates and partners. The company's family-like culture has been a hallmark since its beginning in 1968.

Emser first entered the residential market selling luxury carpets and rugs, while also investing in commercial and residential real estate holdings. In 1973, Emser expanded into the tile and stone industry, which became the company's core business by the 1990s. Early partners were in the homebuilder market, followed by an expansion into the commercial sector, providing wall and flooring solutions for major department stores, government offices and resort hotels across the country.

Rooted in relationships, Emser Tile's key to growth remains its underlying values of perseverance, respect and integrity — values the company championed since the beginning and will carry on to the next generation.

"As we look ahead to the next 50 years, Emser Tile's continued success will draw upon its legacy of strong family values combined with an unparalleled dedication to our customers and associates," shared Carl Delia, president of Emser Tile.

Today, Emser Tile employs more than 1,100 associates nationwide in more than 75 sales and service locations, including four state-of-the-art distribution centers in California, Texas, Virginia and Florida. The company currently offers an expanse of more than 200 tile and natural stone collections.

**About Emser Tile LLC** - Emser Tile is the largest privately held designer and marketer of tile and natural stone products in the United States. Our principal offering includes an extensive line of ceramic, porcelain, natural stone and decorative products to service the design and product needs of our customers. Our products are distributed nationally through a company-owned network of local sales and service locations. The company's products are used extensively in new home construction, remodel applications as well as commercial projects including multi-family housing, hospitality, shopping centers, office buildings and educational facilities.
