

As a reminder of the preciousness of the environment, Emser's Green Friendly Program is symbolized by a green leaf and the words "Green Friendly" above it. The program consists of a systematic two-prong approach:

The first prong includes an effort by Emser and its trade partners to incorporate environmentally friendly practices wherever possible.

The second prong includes driving a companywide program amongst Emser employees to incorporate environmentally friendly office practices.

QUALIFYING CREDITS

LEED BD+C / ID+C						
LEED V3 - 2009	MRC2	MRC4		EQc4.3	MRpc76	MRpc62
Description	Construction Waste Management	10% (post consumer % + 1/2 of preconsumer %)	20% (post consumer % + 1/2 of preconsumer %)	Low-Emitting Materials - Flooring systems	Material Ingredient Reporting	Material Ingredient Reporting
Possible Points	2	1	2	1	1	1

LEED O+M	
LEED V3 - 2009	MRC3
Description	Sustainable Purchasing - Facility Alterations and Additions
Possible Points	1

LEED BD+C / ID+C			
LEED V4 - 2016	Material Resources	Material Resources	Indoor Environmental Quality
Description	Building Product Disclosure and Optimization - Material Ingredients	Construction and Demolition Waste Management	Low Emitting Materials
Possible Points	2	2	3

DEFINITIONS

Supporting documents identified below are needed to accompany each credit

LEED V3 2009 BD+C/ID+C	SUPPORTING DOCUMENTS	CREDIT DESCRIPTION
MRC2	RECYCLABLE PACKAGING (No Documents Needed)	To divert construction and demolition debris from disposal in landfills and incineration facilities. Redirect recyclable recovered resources back to the manufacturing process and reusable materials to appropriate sites.
MRC4	RECYCLED CONTENT (Product Brochure)	To increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of virgin materials.
EQc4.3	LOW/NO VOC (VOC Statement)	To reduce the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well-being of installers and occupants.
MRpc76	HPD (HPD Document)	To encourage the use of products and materials for which life-cycle information is available and that have environmentally, economically, and socially preferable life-cycle impacts. To reward project teams for selecting products for which the chemical ingredients in the product are inventoried using an accepted methodology and for selecting products verified to minimize the use and generation of harmful substances. To reward raw material manufacturers who produce products verified to have improved life-cycle impacts.
MRpc62	SDS (SDS Document)	To increase the use of products and materials that disclose chemical ingredient data.

LEED V3 2009 O+M	SUPPORTING DOCUMENTS	CREDIT DESCRIPTION
MRC3	RECYCLED CONTENT (Product Brochure)	To reduce the environmental and air quality impacts of the materials acquired for use in the upgrade of buildings.

LEED V4 2016 BD+C/ID+C	SUPPORTING DOCUMENTS	CREDIT DESCRIPTION
Building Product Disclosures	HPD (HPD Document)	To encourage the use of products and materials for which life-cycle information is available and that have environmentally, economically, and socially preferable life-cycle impacts. To reward project teams for selecting products for which the chemical ingredients in the product are inventoried using an accepted methodology and for selecting products verified to minimize the use and generation of harmful substances. To reward raw material manufacturers who produce products verified to have improved life-cycle impacts.
Construction and demolition	RECYCLABLE PACKAGING (No Documents Needed)	To reduce construction and demolition waste disposed of in landfills and incineration facilities by recovering, reusing, and recycling materials.
Low Emitting	LOW/NO VOC (VOC Statement)	To reduce concentrations of chemical contaminants that can damage air quality, human health, productivity, and the environment.

NOTES TO CONSIDER

Individual products are never guaranteed points due to the varying requirements within each credit. For further information regarding LEED and green building programs, as well as the requirements necessary to accrue points, please visit www.usgbc.org.

All statements and references contained herein are provided as general information to ensure that the products listed in the shipment, as described on the certificate, hold value towards LEED credit qualifications. Values are subject to change without notice depending on the source of manufacturing at time of purchase.
