New Glitz Collection from Emser Tile Provides a Captivating Accent for Interiors

Glass and metal mosaic fuses material, texture and color variations

LOS ANGELES – Emser Tile, the leading designer, marketer and producer of the world’s finest tile and natural stone, introduces Glitz: a glass and metal mix series that emulates a captivating aesthetic with brush-like movement.

The shimmering mosaics feature metallic accents and layered texture in hexagon shapes. An array of eye-catching color variations – Fame, Glory, Joy, Love and Value – each evoke a feeling through artful form.

With a myriad of design opportunities for backsplashes, fireplace facades, and shower and accent walls, Glitz is ideal for both residential and commercial interiors.

Additionally, the stunning collection:

- Carries a glossy finish to enhance texture and reflective qualities
- Contributes to LEED v4 certification and improves indoor air quality with zero VOC emissions

Design-forward tile series are the core of Emser Tile’s continually expanding product portfolio. More than 20 new collections have been introduced in 2017, with innovative new aesthetics on the horizon for the company’s upcoming 50th anniversary.

To explore Glitz, visit emser.com/products/glitz.

About Emser Tile LLC - Emser Tile is the largest privately held designer and marketer of tile and natural stone products in the United States. Our principal offering includes an extensive line of ceramic, porcelain, natural stone and decorative products to service the design and product needs of our customers. Our products are distributed nationally through a company-owned network of local sales and service locations. The company's products are used extensively in new home construction, remodel applications as well as commercial projects including multi-family housing, hospitality, shopping centers, office buildings and educational facilities. For more information, please visit www.emser.com and follow us on [Facebook](#), [Twitter](#), [Instagram](#) and [Pinterest](#) @EmserTile.
