New Legacy Collection from Emser Tile Redefines Wood-Look Tile

Series heightens wood-look tile, combining high resolution graphics with true surface texture

LOS ANGELES – Emser Tile, the leading designer, marketer and producer of the world’s finest tile and natural stone, introduces Legacy: a glazed porcelain tile collection for residential and commercial interiors that elevates wood-look aesthetics through cutting-edge techniques.

Three-dimensional surface texture and high resolution graphics mirror that of contemporary hardwood panels with the inherent reliability and durability of glazed porcelain tile. Five rich wood colors—White, Sand, Havana, Gray and Brown— allow Legacy to lend a range of aesthetics, spanning both modern and traditional.

“Wood-look tile has the ability to suit almost every approach to design, from farmhouse rustic to elegant and refined,” shared Barbara Haaksma, Emser Tile Vice President of Marketing. “By marrying high definition printing with true surface texture, Legacy evolves what wood-look tile can be, for a result that is at once fresh and familiar.”

Additional collection details include:

- Available in 8” x 47” plank tiles
- Suitable for interior and exterior environments
- Contributes to LEED v4 certification
- Improves indoor air quality with zero VOCs emissions

To view the Legacy series, visit Emser Tile’s website at emser.com/products/legacy.

About Emser Tile LLC - Emser Tile is the largest privately held designer and marketer of tile and natural stone products in the United States. Our principal offering includes an extensive line of ceramic, porcelain, natural stone and decorative products to service the design and product needs of our customers. Our products are distributed nationally through a company-owned network of local sales and service locations. The company's products are used extensively in new home construction, remodel applications as well as commercial projects including multi-family housing, hospitality, shopping centers, office buildings and educational facilities. For more information, please visit www.emser.com and follow us on [Facebook](#), [Twitter](#), [Instagram](#) and [Pinterest](#) @EmserTile.
