

IF YOU'RE BETWEEN S2 AND M1 GO FOR THE LARGER SIZE\*

IF YOU'RE BETWEEN M2 AND L1 GO FOR THE LARGER SIZE\*

# MEDIUM

# intake

## SIZE CHART

# SMALL

# LARGE

cut along dotted lines

fold tab at solid line

place nose into opening  
\*nose should lightly touch sides of paper

\*nose too large

\*nose too small

Place a quarter on top of George Washington. If it's the same size as this guide, you've scaled this print like a boss.

**\*An exception to the rule:** if you're using Intake primarily for a goggle sport (motocross, snow sports, etc) then size down instead. A smaller band puts less pull on the breathing tabs, and will therefore be a bit more secure when worn under gear or during high-impact activity.

### PRINTING INSTRUCTIONS

- Do not fit to page
- Leave at 100% scale
- Default to landscape
- Standard Letter Size 8.5x11
