

## 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** Dissolvine® D-Fe-11  
**Chemical Name:** Diethylenetriaminepentaacetic acid, ferric sodium salt  
**Synonyms:** Ferric sodium DTPA ; Sodium Hydrogen Ferric Diethylenetriaminepentacetate  
**C.A.S. Registry No.:** 12389-75-2  
**Chemical Formula:** C<sub>14</sub> H<sub>18</sub> N<sub>3</sub> O<sub>10</sub> · FeHNa  
**Product Use:** Chelating agent, plant nutrient

### Manufacturer / Supplier

Akzo Nobel Functional Chemicals LLC  
Chelates Americas  
525 West Van Buren St., Chicago, IL 60607  
Tel. 1-800-906-7979

### Emergency Telephone Numbers

**FOR CHEMICAL EMERGENCY** (Spill, Leak, Fire, Exposure or Accident)

- **CHEMTREC (24-hr):** (800) 424-9300 (Toll-free in the U.S., Canada, and the U.S. Virgin Islands)  
(703) 527-3887 (For calls originating elsewhere / collect calls are accepted)
- **CANUTEC (Canada):** (613) 996-6666

**FOR MEDICAL / HANDLING EMERGENCIES:** 1-914-693-6946 [AkzoNobel - USA]

<b>Date of First Issue:</b> September 27, 1994	<b>Revision No.:</b> 10.0
<b>Revision Date:</b> November 24, 2008	<b>Changes:</b> Sections 1, 16 / Logo / Format

## 2. HAZARDS IDENTIFICATION

### EMERGENCY OVERVIEW

#### **CAUTION!**

- *Contact with dust may cause mechanical and/or incidental irritation to eyes and respiratory tract.*
- *Possible Development Hazard – Contains material (DTPA) that may adversely affect the developing fetus based on animal data.*

**Appearance and odor:** yellow green odorless powder.

### POTENTIAL HEALTH EFFECTS [See section 11 for additional information]

**Primary Route(s) of Exposure:** Skin contact, eye contact and inhalation.

#### **Acute Exposure**

- **Inhalation:** Inhalation of dust may cause discomfort and/or irritation of the respiratory system.
- **Eye Contact:** This product may cause mild physical irritation.
- **Skin Contact:** This product is not expected to be irritating to rabbit skin.
- **Ingestion:** This product has a low order of acute toxicity.

**Carcinogenicity:** IARC, NTP, ACGIH and OSHA do not classify this material as a carcinogen or suspect carcinogen.

**Chronic Effect / Developmental:** Contains material that may adversely affect the developing fetus, based on animal data with a related product.

## 2. HAZARDS IDENTIFICATION (CONTINUED)

**Medical conditions aggravated:** There are no data available that address medical conditions that are generally recognized as being aggravated by exposure to this product.

### POTENTIAL ENVIRONMENTAL EFFECTS [See section 12 for additional information]

This product is not expected to be harmful to aquatic life, based on data with related products.

## 3. COMPOSITION / INFORMATION ON INGREDIENTS

<u>INGREDIENTS</u> [See section 8 for exposure limits]	<u>% (w/w)</u>	<u>CAS Number</u>
Ferric sodium DTPA	92 – 100	12389-75-2
Water	0 – 8 (balance)	7732-18-5

## 4. FIRST AID MEASURES

**Inhalation:** Dust may be irritating to the respiratory tract and cause symptoms of bronchitis. Move victim to fresh air. If breathing becomes difficult, oxygen may be given, preferably under physician's advice. Get medical attention if symptoms persist.

**Eye Contact:** Flush eyes with large quantities of running water for a minimum of 15 minutes. If the victim is wearing contact lenses, remove them. Hold the eyelids apart during the flushing to ensure rinsing of the entire surface of the eye and lids with water. Do not let victim rub eye(s). Do not attempt to neutralize with chemical agents. Get medical attention if eye irritation occurs.

**Skin Contact:** Remove contaminated clothing, shoes and equipment. Flush skin with plenty of water while removing contaminated clothing and shoes. Wash contaminated clothing and shoes before reuse. Get medical attention if irritation occurs.

**Ingestion:** Call a physician immediately. ONLY induce vomiting at the instructions of a physician. If victim is conscious, rinse mouth and give water to drink. Never give anything by mouth to an unconscious person.

**Note to Physician:** Attending physician should treat exposed patients symptomatically.

## 5. FIRE FIGHTING MEASURES

<b>Conditions of Flammability:</b>	not flammable or combustible
<b>Flash Point (Method):</b>	not applicable
<b>Upper Flammable Limit (% by volume):</b>	not determined
<b>Lower Flammable Limit (% by volume):</b>	not determined
<b>Auto-Ignition Temperature:</b>	> 392°F / >200°C (glowing of 5 mm product layer)

**Extinguishing Media:** This product is not flammable or combustible. If involved in a fire, use water fog or spray, dry chemical, foam or carbon dioxide extinguishing agents.

**Fire Fighting Procedures:** As in any fire, prevent human exposure to fire, smoke, fumes or products of combustion. Evacuate all non-essential personnel from the fire area. Fire fighters should wear full-face, self-contained breathing apparatus and impervious protective clothing.

**Fire & Explosion Hazards:** This product is not defined as flammable or combustible and should not be a fire hazard. Under fire conditions, it does not contribute any unusual hazards.

**Hazardous Combustion Products:** Thermal decomposition products may release toxic and/or hazardous fumes and gases, including nitrogen oxides and carbon oxides.

## 5. FIRE FIGHTING MEASURES (CONTINUED)

**NFPA Hazard Rating – Health: 1      Fire: 0      Reactivity: 0      Other: None**

[ 0 - Minimal      1 - Slight      2 - Moderate      3 - High      4 - Extreme ]

## 6. ACCIDENTAL RELEASE MEASURES

**Spill/Leak:** Safely stop source of spill. Restrict non-essential personnel from area. All personnel involved in spill cleanup should avoid skin and eye contact by wearing appropriate personal protective equipment.

**Cleanup:** Sweep up spilled solid material, being careful not to create dust. Return sweepings to stock or, if contaminated, place into a chemical waste container for disposal according to local, state or federal regulations. Flush remainder with water.

## 7. HANDLING AND STORAGE

**Handling:** Avoid inhalation and prolonged and/or repeated skin and eye contact. Avoid dust generation. In certain concentrations, this product may form an explosive dust-air mixture.

**Storage:** Keep containers closed and dry as product is hygroscopic. This material is suitable for any general chemical storage area. Isolate from strong oxidizers.

**Maximum Storage Temperature:** Store in original packing in a cool and dry place at ambient temperature (below 25°C / 77°F).

**General Comments:** Containers should not be opened until ready for use. It is recommended to re-test the product after three years in storage.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**Applicable Exposure Limits:** In addition to any exposure limits displayed below, exposures to this product should be controlled below limits established for “Particulates Not Otherwise Classified (PNOC)” :

- OSHA – 15 mg/m<sup>3</sup> (total dust) ; 5 mg/m<sup>3</sup> (respirable fraction)

Chemical Name	OSHA – PELs (mg / m <sup>3</sup> )		ACGIH – TLVs (mg / m <sup>3</sup> )		NIOSH – RELs (mg / m <sup>3</sup> )		AIHA – WEELs (mg / m <sup>3</sup> )	
	TWA	STEL / CEIL(C)	TWA	STEL / CEIL(C)	TWA	STEL / CEIL(C)	TWA	STEL / CEIL(C)
Ferric sodium DTPA	N/D	N/D	N/D	N/D	N/D	N/D	N/D	N/D
Water	N/D	N/D	N/D	N/D	N/D	N/D	N/D	N/D

[Ref: ACGIH Guide to Occupational Exposure Values, 2008 Edition]

**Legend:**

CEIL: Ceiling Exposure Limit      PEL: Permissible Exposure Limit      REL: Recommended Exposure Limit  
 STEL: Short Term Exposure Limit      TLV: Threshold Limit Value      TWA: Time-Weighted Average  
 N/D: Not Determined      WEEL: Workplace Environmental Exposure Level  
 ACGIH: American Conference of Governmental Industrial Hygienists  
 AIHA: American Industrial Hygiene Association  
 NIOSH: National Institute for Occupational Safety and Health  
 OSHA: Occupational Safety and Health Administration

**Engineering Controls - Ventilation:** Special ventilation is usually not required under normal use conditions. However, ensure that existing ventilation is sufficient to prevent the circulation and/or accumulation of dust in the air.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION (CONTINUED)

### Personal Protective Equipment (PPE)

- **Respiratory Protection:** If handling operations generate dust, wear a NIOSH-approved half-mask, air purifying respirator with dust, mist and fume filters to reduce potential for inhalation exposure. When using respirator cartridges or canisters, they must be changed frequently (following each use or at the end of the work shift) to assure breakthrough exposure does not occur.
- **Skin Protection:** Skin contact with the product should be minimized or prevented through the use of suitable protective clothing, gloves and footwear selected according to use condition exposure potential. For permanent and/or full contact use, 100% nitrile gloves are recommended.
- **Eye Protection:** Indirect vented, dust-tight goggles should be worn when handling this product.

**Other Protection - General Hygiene Considerations:** All food and smoking materials should be kept in a separate area away from the storage/use location. Eating, drinking and smoking should be prohibited in areas where there is a potential for significant exposure to this material. Before eating, drinking and smoking, hands and face should be thoroughly washed.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Physical State / Appearance / Odor:</b>	yellow green odorless powder
<b>Boiling Point:</b>	not applicable
<b>Bulk Density:</b>	650 – 750 kg/m <sup>3</sup> (untapped)
<b>Cloud Point:</b>	not determined
<b>Evaporation Rate (Butyl Acetate=1):</b>	not determined
<b>Melting Point:</b>	decomposes without melting
<b>Odor Threshold:</b>	not determined
<b>pH:</b>	≈ 3.0 (1% solution)
<b>Partition Coefficient (n-octanol/water):</b>	Log P <sub>ow</sub> < 0
<b>Pour Point:</b>	not determined
<b>Solubility in water:</b>	110 g/L (68°F / 20°C) ; 300 g/L (176°F / 80°C)
<b>Solubility in other solvents:</b>	not determined
<b>Specific Gravity (H<sub>2</sub>O = 1):</b>	not determined
<b>Vapor Density (Air = 1):</b>	not applicable
<b>Vapor Pressure:</b>	not applicable
<b>Viscosity:</b>	not determined
<b>Volatiles (% by weight):</b>	not determined
<b>Other – Decomposition temperature:</b>	≈ 356°F (180°C)
<b>Conditions of Flammability:</b>	not flammable or combustible
<b>Flash Point (Method):</b>	not applicable
<b>Upper Flammable Limit (% by volume):</b>	not applicable
<b>Lower Flammable Limit (% by volume):</b>	not applicable
<b>Auto-Ignition Temperature:</b>	> 392°F / >200°C (glowing of 5 mm product layer)

< : less than    > : greater than    ≈ : approximately

## 10. STABILITY AND REACTIVITY

**Stability:** This product is stable at ambient temperatures and atmospheric pressures. It is not self-reactive and is not sensitive to physical impact.

**Incompatibilities / Conditions to avoid:** This product is incompatible with strong oxidizers. Avoid prolonged storage at elevated temperatures. Avoid humid conditions as product is hygroscopic. Product layer on hot surface might cause glowing or autoignition.

**Polymerization:** Hazardous polymerization is not expected to occur under normal temperatures and pressures.

## 10. STABILITY AND REACTIVITY (CONTINUED)

**Decomposition Products:** Under fire conditions the product may support combustion and decomposes to give off carbon oxides fumes (CO, CO<sub>2</sub>), nitrogen oxides and water vapor.

## 11. TOXICOLOGICAL INFORMATION

### **INHALATION**

**Acute exposure:** The acute LC<sub>50</sub> for this product is not available. Inhalation of dust may cause discomfort and/or irritation of the respiratory system.

**Chronic exposure:** No known effects.

### **SKIN**

**Acute contact:** Dermal toxicity for this product is not available. However, it is not considered to be irritating to skin based on tests with similar products.

**Chronic contact:** No known effects.

**EYES:** While this product has not been tested, it is expected that it would be minimally irritating to eyes based on tests with similar products.

### **INGESTION**

**Acute exposure:** The oral LD<sub>50</sub> for this product is expected to be greater than 2000 mg/kg in rats based on data from similar products.

**Chronic exposure:** No known effects.

**SENSITIZATION:** No known effects.

**CARCINOGENICITY:** IARC, NTP, ACGIH and OSHA do not classify this material as a carcinogen or suspect carcinogen.

**MUTAGENICITY:** No data available.

**REPRODUCTIVE TOXICITY:** The following data is available for a related product, Pentasodium DTPA (Na<sub>5</sub>DTPA): "A maternally non-toxic dose (400 mg/kg) of a test article with 40% Na<sub>5</sub>DTPA, administered orally to pregnant rats, caused a significant increase in skeletal retardations in the developing fetuses. In the presence of maternal toxicity, a dose of 1000 mg/kg caused a statistically significant increase in skeletal malformations, variations, and retardations in rat fetuses. These effects may be due to zinc deficiency caused by chelation of zinc by Na<sub>5</sub>DTPA."

**OTHER TOXICOLOGICAL EFFECTS:** None

**TARGET ORGANS:** Eyes

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity:** No data available on this product. However, it is not expected to be harmful to aquatic life, based on data with related products.

**Chemical Fate:** The substance is not expected to enter the atmosphere significantly due to its water solubility. C.O.D. = approx. 750 mg/g

**Biodegradation:** This product is not expected to be readily biodegradable based on tests with structurally related products.

## 13. DISPOSAL CONSIDERATIONS

**Waste Disposal:** In its unused condition, this product is not considered to be a RCRA-defined hazardous waste by characteristics or listings. It is the responsibility of the waste generator to evaluate whether his wastes are hazardous by characteristic or listing. Dispose in accordance with all local, state and federal regulations.

NOTE – State and local regulations may be more stringent than federal regulations.

**Container Disposal:** Containers should be cleaned of residual product before disposal or return. Since emptied containers retain product residue, follow label warnings even after container is emptied. Empty containers should be disposed of or shipped in accordance with all applicable laws and regulations.

## 14. TRANSPORT INFORMATION

**Shipping Information:** Not regulated for transport.

**Required Labels:** No transport label required

**Environmentally Hazardous Substances [49 CFR 172.101, Appendix A]:** None

## 15. REGULATORY INFORMATION

The components are subject to the following regulatory lists and inventories:

### Regulatory Lists:

## 15. REGULATORY INFORMATION (CONTINUED)

### Canada - WHMIS (Workplace Hazardous Materials Information System): **Not controlled**

This product has been classified in accordance with the hazard criteria of the *Controlled Products Regulations* (CPR) and the MSDS contains all the information required by the CPR.

### Micronutrient Approvals / Registrations

- **Canadian Food Inspection Agency (CFIA):** Dissolvine D-FE-11 is a registered micronutrient in Canada under the Fertilizers Act [Registration Number 980103B]
- **California Department of Food and Agriculture (CDFA):** Dissolvine D-FE-11 is approved for sale and distribution in California.

## 16. OTHER INFORMATION

**HMIS RATING – Health:** 1\*    **Flammability:** 0    **Reactivity:** 0    **Other:** none  
[ 0 - Minimal    1 - Slight    2 - Moderate    3 - High    4 - Extreme    \* - Chronic Health Hazard (see Section 11)]
