INSPIRING EXPERIENCE OF SPORT

GET TO KNOW YOUR NEW PREMIUM RUNNING BELT

You have chosen a first class sport product with a unique design. Sport2People Premium Running belt prides itself on design patent in North America and Europe. Please be aware there are lots of fake copies of Sport2People Premium Running belt which are made from lost cost materials which could harm you while wearing it.

That is why we ask you to purchase new Sport2People Running belts or other Sport2People products directly from our brand. This is the only way we can guarantee you high-quality.

Sport2People Premium Running belt is made from high-quality water-resistant and sweat-resistant material. The material is a mixture of polyamide (85%) and spandex (15%). Inner layer is made from durable TPU.

HIGH-QUALITY YKK ZIPPER

Featuring an extra secure high-quality zipper by YKK. Water-resistant and distinguished by its reliability even after long use. Easily slide in your running essentials. Enhanced safety with an extra secure zipper.

DURABLE AND LIGHTWEIGHT YKK BUCKLE

New lightweight and V-shaped YKK buckle offers you for a smooth and easy plug insertion yet a tight lock and smooth adjustment with a simple motion.

HOW TO MAINTAIN YOUR BELT?

Wash it with mild detergent or soap, gently rub it. Rinse under running water. Air dry.

ADJUSTING YOUR RUNNING BELT

The Sport2People Premium Running belt can be adjusted to comfortably fit your waist from 27.5" (69 cm) to 40.5" (103 cm). In order to make the belt shorter than 40.5" you need to weave the excess strap through the strap slider.

Adjust the strap to its shortest length using the strap slider

Adjust the strap to its shortest length by moving the slider as far towards the pockets part as possible.

Pull the top part of the strap as far out as possible

Pull the top part of the strap as far out as possible. Doing this will also shorten the bottom part to its minimum length.

Fold the excess strap and place its corner through the strap slider

Fold the excess strap and place its corner through the strap slider. When doing this on a brand new belt, you may need to slightly force it through since the strap material is still very stiff.

Pull the rest of the strap through the strap slider

Once you get the corner through, pull the rest of the strap all the way through until it's tight.

Once done, the final result should look like this

Note that you can do this to either one end or both ends of the strap, depending on how much it needs to be adjusted. If you need any assistance adjusting the belt, please contact us and we will happily help you out.

HOW TO WEAR IT

Put it around your waist, cover with a shirt or jacket or wear it over your shirt. It can be worn either high or low, around your waist or lower on the hips. Depending on what kind of activities you're doing you can also test whether to have the pockets in front or in the back.

Since it is bounce-free you can use it for different sports.

INSERTING HEADPHONES

Easily insert your headphones through the hole. Once in you don't need to adjust the volume of your music or change a song; simply double click the center of the microphone (depends on the headphones you have) and adjust it.

HOW TO USE POCKETS

These pockets expand pretty well. The small is 5.12" (13 cm), the big one 9.06" (23 cm) long. Your phone, gel, earbuds, pepper spray can all fit in the large pocket, the smaller one is perfect for credit card or money and keys.

Unlike other running belts Sport2People Premium Belt does not lose signal during running or other outdoor/indoor activities. Track your workout, running routes, heart rate no matter the activity or location. When opened your valuables do not fall out of the pouch.

By using Sport2People Premium Running Belt you'll save your phone from scratches or losing your valuables.

WHEN TO USE IT

Perfect for storing your essentials during large crowd events, sports or water-related activities.

Use it as a travel belt where you can secure your passport, credit cards, and keys. It fits US passport.

Put it around your waist while hiking, trekking or dog walking.
