

Sport Bumper Installation

2018-2020 RZR Turbo S

Step 1: Remove grille and plastic winch cover. Remove the grille by pulling down on the 2 plastic tabs above the grille. Remove the winch cover by removing the 2 screws circled.

Step 2: Mount included bracket above the winch mount with the included 1/2 inch nuts and bolts. Once the included bracket is installed. Mount the plastic winch cover back on to the machine.

Step 3: Remove lower tow point

Mount bumper to the included bracket and to the lower tow hooks with the included bolts use the stock tow hook backer to secure the bolts.. To do this you have to remove the upper skid plate nuts and bolts. Leave the bottom 2 nuts and bolts on the skid plate loosely tightened. Once everything is tight, mount the skid plate back on to the bumper.

Step 4:
