Catalog Number: 21101  
Barcode: 754917802003

58 days. Heirloom brought to U.S. by Italian gardeners. 3-6" diameter central head plus many side shoots. 2g (≈600 seeds)

---

## De Cicco

Type: BROCCOLI  
Catalog Number: 21102  
Barcode: 754917802010

49 days. Heirloom introduced ~1890. Versatile broccoli with 3-6" diameter head and side-sprouts for an extended harvest. Leaves can be eaten like collards when head is 1/4 developed. 2g (≈600 seeds)

---

## Sorrento

Type: BROCCOLI RAAB  
Catalog Number: 21501  
Barcode: 754917802386

45 days. Wilder cousin of broccoli. Mild peppery taste. Uniform 3-4" florets come in early and stay late. Florets, leaves, and stems are edible. 2g (≈600 seeds)

---

## Red Acre

Type: CABBAGE, RED  
Catalog Number: 22104  
Barcode: 754917802034

76 days. Compact short-stemmed plants produce round 3 lb. 5-7" red-purple heads. Excellent storage variety, resistant to cabbage yellows. 2g (≈600 seeds).

---

## Golden Acre

Type: CABBAGE  
Catalog Number: 22106  
Barcode: 754917802393

62 days. Small, 5-7" heads can be planted closer together than larger, later varieties. Quick to mature but doesn't store well. 1g (≈300 seeds)

---

## White-Stemmed Pak Choi

Type: PAK CHOI  
Catalog Number: 22504  
Barcode: 754917802409

45 days. Non-heading Chinese cabbage grows 8-10" tall. Tender, loose, thick leaves great for Asian cooking. Cold resistant, grows over a long period of time. 2g (≈1050 seeds)

---

## Tokyo Bekana

Type: CHINESE CABBAGE, LOOSELEAF  
Catalog Number: 22505  
Barcode: 754917800832

44 days. Great salad mustard. Fast-growing plants make enormous loose heads of light green, ruffled leaves. Very mild, almost lettuce-like in flavor. Good frost tolerance. 2g (≈1000 seeds)

---

## Tatsoi

Type: MUSTARD  
Catalog Number: 22601  
Barcode: 754917802041

43 days. Rosettes of dark, thick, oval-shaped green leaves. Very attractive, easy to grow, and long-lasting. Most cold-hardy mustard. 2g (≈1000 seeds)

---

## Snowball Y

Type: CAULIFLOWER, FALL  
Catalog Number: 23103  
Barcode: 754917802348

80 days. Large white heads are uniform, solid and smooth. Widely adapted and well suited for fall crops. 2g (≈600 seeds)

---

## Georgia Green

Type: COLLARDS  
Catalog Number: 24101  
Barcode: 754917802294

Heirloom introduced before 1880. An old Southern favorite. Open, loose heads best harvested after frost. 36" tall plants resistant to heat and frost, grow well on poor and sandy soil. 2g (≈500 seeds)

---

## Green Glaze

Type: COLLARDS  
Catalog Number: 24102  
Barcode: 754917802454

79 days. [1820 heirloom] Unique Southern variety with smooth, bright green leaves. Heat and frost resistant, slow bolting, non-heading, insect resistant. 30-34" tall. 1g (≈312 seeds)

---

## Champion

Type: COLLARDS  
Catalog Number: 24105  
Barcode: 754917802058

75 days. A Vates-type collard with increased bolt-resistance, darker blue-green foliage, and enhanced winter hardiness. Non-heading and productive. 2g (≈600 seeds)

---

## Vates

Type: KALE  
Catalog Number: 25101  
Barcode: 754917802232

55 days. Our most flavorful variety of kale. Best steamed, and good fresh as a garnish or salad ingredient. Plant spring or fall. 2g (≈600 seeds)

---

## Red Russian

Type: KALE  
Catalog Number: 25102  
Barcode: 754917802065

40 days. Heirloom. Early crop of very tender, bitter-free green leaves with purple-pink veins on 2' tall plants. Leaves turn reddish-purple in cold weather. 2g (≈600 seeds)

---

## Lacinato (Dinosaur)

Type: KALE  
Catalog Number: 25106  
Barcode: 754917802072

60 days. Heirloom, 1700s. Classic dark green Tuscan kale. Sweet, delicious, and tender enough for raw salads. Extremely cold hardy. 2g (≈600 seeds)

---

## Early Purple Vienna

Type: KOHLRABI  
Catalog Number: 26101  
Barcode: 754917802089

60 days. Heirloom, 1860. A cabbage relative with a ball-shaped stem and juicy, crispy texture. Great raw in salads, boiled, or stir-fried. Purplish leaves and skin. Stores well. 4g (≈1200 seeds)

---

## Red Giant

Type: MUSTARD  
Catalog Number: 27102  
Barcode: 754917802096

43 days. Heirloom. Attractive well-crinkled red-purple leaves with deep green undercoats. Cold tolerant and very insect resistant. Strongly mustard flavor. 2g (≈1000 seeds)

---

## Southern Giant Curled

Type: MUSTARD

Catalog Number: 27103

Barcode: 754917802102

45 days. Heirloom. Old southern favorite. Large, bright green leaves with attractively curled edges. Cold tolerant and bolt resistant. Good for late sowings. 2g (≈1000 seeds).

---

## Mizuna, Early

Type: MUSTARD

Catalog Number: 27104

Barcode: 754917802119

37 days. Extremely mild and tender. Great in salads even for those who dislike the intense spiciness of other raw mustards. An excellent cooking green. 2g (≈1000 seeds)

---

## Carolina Broadleaf

Type: MUSTARD

Catalog Number: 27112

Barcode: 754917809866

42 days. Old favorite Florida Broadleaf mustard is having big problems with a new bacterial blight, so Carolina breeders have come to the rescue and added needed resistance! 16-24 in. tall plants, green leaves. 2g (≈1000 seeds)

---

## Black Spanish Round

Type: RADISH, FALL

Catalog Number: 28102

Barcode: 754917802461

53 days. Heirloom, 1824. Round roots 3-4" or larger in diameter. Firm, white flesh is crisp and pungent with a thin, nearly-black skin. Very hardy, an excellent winter keeper. 4g (≈350 seeds)

---

## Cherry Belle

Type: RADISH

Catalog Number: 28103

Barcode: 754917802126

24 days. Round, bright red roots with crisp, firm white flesh. Our sweetest spring radish. 7g (≈600 seeds)

---

## White Icicle (Lady Finger)

Type: RADISH

Catalog Number: 28106

Barcode: 754917802140

29 days. Heirloom, 1865. Mild, white, carrot-shaped roots reach 4-5" long. Best harvested small, but remains mild large. 7g (≈600 seeds)

---

## Sparkler White Tip

Type: RADISH

Catalog Number: 28108

Barcode: 754917802362

24 days. Bright scarlet tops and white bottoms on round roots. Harvest at 1" diameter and enjoy the sweet, white flesh. 7g (≈600 seeds)

---

## Misato Rose

Type: RADISH, FALL

Catalog Number: 28109

Barcode: 754917802157

60 days. Heirloom. Green and white skin, with rose and white flesh. Beautiful sliced or grated in salads. Round roots grow up to 5". Our favorite storage radish. 2g (≈140 seeds)

---

## French Breakfast

Type: RADISH

Catalog Number: 28111

Barcode: 754917809842

25 days. Heirloom. Rich scarlet roots with white tips. Slim, oblong shape. Harvest at 3" (early to avoid fibrousness). Mild flavor, tasty in salads or as a snack. Spicy green tops. 4g (500 seeds)

---

## Daikon, Miyashige White

Type: RADISH, FALL

Catalog Number: 28201

Barcode: 754917802188

65 days. Heirloom. Crisp, juicy and flavorful. Use fresh in salads, cooked, or pickled in kimchi. Harvest at 12" long. 2g (≈120 seeds)

---

## Easter Egg

Type: RADISH  
Catalog Number: 28951  
Barcode: 754917802423

24 days. Colorful mix of purple, red, and white round radishes. Longer harvesting period thanks to the variety of types. 7g (≈600 seeds)

---

## Purple Top White Globe

Type: TURNIP  
Catalog Number: 29102  
Barcode: 754917802164

50 days. Heirloom. Round, 5" white turnips turn bright purple where tops are exposed to sun. Harvest at 3". A favorite garden variety. 3g (≈1300 seeds)

---

## Seven Top (Southern Prize)

Type: TURNIP GREENS  
Catalog Number: 29201  
Barcode: 754917802171

45 days. Heirloom, 1880. Popular Southern variety grown for tender young greens, not the woody roots. Leaves grow to 18-22", but are best harvested when small. 3g (≈1300 seeds)

---

## American Purple Top Yellow

Type: RUTABAGA  
Catalog Number: 29501  
Barcode: 754917802249

90 days. Heirloom. Long time standard for home and market use. Roots should be harvested when 4 to 6" in diameter. 2g (≈900 seeds)

---

## Nadmorska Rutabaga

Type: RUTABAGA  
Catalog Number: 29503  
Barcode: 754917809880

90 days. [From seed collected in Lithuania in 2007 by the Seed Ambassadors Project.] Large, vigorous and early maturing. Green tops, sweet golden flesh. Unusually, roots are longer and more oval than regular round rutabagas. 2 g (≈900 seeds)

---

## Chioggia (Dolce Di Chioggia)

Type: BEET, STRIPED

Catalog Number: 31101

Barcode: 754917803000

52 days. Italian Heirloom, 1840. Beautiful concentric interior rings of alternating red-pink and white. Early and vigorous variety competes well with weeds. Bleeds less than other beets. 3g (~230 seeds)

---

## Detroit Dark Red

Type: BEET

Catalog Number: 31103

Barcode: 754917803017

60 days. Heirloom, 1892. Widely adapted, very popular dark red beet with dark green foliage. Use fresh or canned. Excellent flavor. 5g (~350 seeds)

---

## Early Wonder Tall Top

Type: BEET

Catalog Number: 31104

Barcode: 754917803024

50 days. Heirloom, 1911. Quick-growing variety produces tall tops for greens and uniform dark red roots ideal for pickling, cooking, and eating fresh. 5g (~385 seeds)

---

## Lutz Green Leaf (Winter Keeper)

Type: BEET

Catalog Number: 31105

Barcode: 754917803130

76 days. Heirloom. An excellent keeper. Retains its sweetness and texture even when large. Fall leaves tender enough for salads. 5g (~385 seeds)

---

## Bull's Blood

Type: BEET

Catalog Number: 31106

Barcode: 754917803031

35 days for leaves, 60 days for beets. French Heirloom, 1840. Famously mild, dark leaves usually harvested young for salads before the roots have matured. Cool weather enhances the striking color. 3g (~210 seeds)

---

## Cylindra

Type: BEET

Catalog Number: 31107

Barcode: 754917803178

55 days. Heirloom. Rich red beets are tender and sweet. 6" x 2" carrot-shaped beets are easier to peel and slice than round beets. Perfect for salads and pickling. 5g (~350 seeds)

---

## Ruby Red (Rhubarb Chard)

Type: CHARD, SWISS

Catalog Number: 32102

Barcode: 754917803048

55 days. Attractive ruby-red stalks with dark green, crumpled foliage. Easy to grow greens spring, summer and fall. Worth growing for the color alone. 4g (~200 seeds)

---

## Prismatic Rainbow

Type: CHARD, SWISS

Catalog Number: 32952

Barcode: 754917809774

60 days. [Orig. from Australia, more recent selection by Siskiyou Seeds.] A real rainbow; stalks in vivid shades of orange, pink, white, yellow, and red, with some striping. Also selected for upright leaves and resistance to leaf miners. 4g (~200 seeds)

---

## Callaloo

Type: GREENS, AMARANTH

Catalog Number: 33121

Barcode: 754917809781

[Jamaican variety, via Melissa DeSa in FL.] Tasty, quick growing, self sowing hot weather greens popular throughout the African diaspora, as well as in Asian cuisines. Tolerant of poor soil, root knot nematodes, and bacterial wilt. 0.3g (~790 seeds)

---

## Jewels of Opar (Fame Flower)

Type: GREENS

Catalog Number: 34201

Barcode: 754917809767

(*Talinum paniculatum*) 35 days. Purslane relative with elegant panicles of 3/8 in. pink flowers. Succulent, mild leaves, good spinach substitute. Grows in sun or part shade; tolerates poor soil. Perennial in zones 8 and up. 0.15g (~470 seeds)

---

## Chantenay Red Core

Type: CARROT

Catalog Number: 35101

Barcode: 754917803062

65 days. French Heirloom, 1880s. Blocky, blunt tipped deep-orange carrots 5 ½" long x 2 ½" at the shoulder. Adaptable to clay and other soils. 3g (≈1500 seeds)

---

## Danvers 126

Type: CARROT

Catalog Number: 35103

Barcode: 754917803079

75 days. Introduced 1947. Deep orange tapered 6-7" roots with 2" shoulders. Especially suited to clay soils. Heat tolerant, widely adapted, and productive. 3g (≈1500 seeds)

---

## Scarlet Nantes

Type: CARROT

Catalog Number: 35106

Barcode: 754917803086

70 days. Heirloom, 1870. Fine texture, mild flavor, and very small core. Cylindrical (not tapered) carrots 6 ½" long x 1-1 ½" at the shoulder. 3g (≈1500 seeds)

---

## Imperator (Tendersweet)

Type: CARROT

Catalog Number: 35108

Barcode: 754917809941

74 days. [AAS winner.] Sweet, crisp, and tender. 7-9 in. orange-red roots are coreless, have semi-blunt ends and narrow shoulders. Requires loose, deep soil to achieve its full potential. 3 g (~1500 seeds)

---

## Purple Dragon

Type: CARROT, PURPLE

Catalog Number: 35109

Barcode: 754917809903

80 days. Beautiful regular-size purple carrot bred by John Navazio. Bright orange or yellow interior, sweet spicy flavor, can be used just like any regular carrot, good storage. Better flavor and more consistent color than Cosmic Purple. 1 g

---

## Tall Utah

Type: CELERY  
Catalog Number: 36102  
Barcode: 754917803208

110 days from transplant. [1953] 30" plants are medium dark green, with 12" crisp, tender and tasty stalks. 0.5g (≈1200 seeds)

---

## Moss Curled

Type: PARSLEY  
Catalog Number: 37103  
Barcode: 754917803116

70-85 days. Heirloom. Dark green leaves so thickly curled that the plant resembles moss. Best started inside, then transplanted out 12" apart. 2g (900 seeds)

---

## Turga

Type: PARSNIP  
Catalog Number: 38104  
Barcode: 754917800955

100 days [Hungarian heirloom] Flavorful, sweet, 5-7" stout parsnips with smooth white skin. Short, stout roots are good for heavy clay soils. 2g (≈350 seeds)

---

## Ashworth

Type: CORN, SWEET  
Catalog Number: 41101  
Barcode: 754917804007

69 days. Early maturing, widely adapted sweet corn with good flavor and dependability. 1-2 ears (6-7" long) on 5' stalks. 14g (50 seeds)

---

## Floriani Red Flint

Type: CORN, FLINT  
Catalog Number: 41318  
Barcode: 754917804809

100 days. Fast maturing heirloom. Beautiful red kernels are slightly pointed. Cornmeal has a pink cast and makes polenta with a rich, complex flavor. 28g (40-60 seeds)

---

## Pungo Creek Butcher

Type: CORN, DENT  
Catalog Number: 41319  
Barcode: 754917800559

Heirloom. Tall, sturdy stalks up to 11ft. 9-12" ears in tightly wrapped husks are a rainbow of red, yellow, brown and purple. Makes gorgeous, delicious muffins and cornbread. 28g (≈100 seeds)

---

## Pennsylvania Butter-Flavored

Type: POPCORN  
Catalog Number: 41602  
Barcode: 754917804021

102 days. Pre-1885 Heirloom. Popcorn with superior flavor. White-kerneled, tapered, 4-6" ears average 2 per 8' stalk. 26-28 rows of kernels per ear. 14g (150 seeds)

---

## Dakota Black

Type: POPCORN  
Catalog Number: 41605  
Barcode: 754917804014

90 days. Beautiful 4-1/2" maroon black ears, great flavor. 15 rows per ear. 6' stalks, 1 ear per stalk, above-average pest resistance. 14g (100 seeds)

---

## Cherokee Long Ear Small

Type: POPCORN  
Catalog Number: 41609  
Barcode: 754917804960

100 days. Ornamental, 5-7" ears are a mix of red, blue, orange, white and yellow. Small kernels make surprisingly large pops. Great flavor. 6-8' plants. 14g (120 seeds)

---

## Black Beauty

Type: EGGPLANT  
Catalog Number: 45101  
Barcode: 754917804038

74 days. 1902 Heirloom. High quality dark purple fruits with excellent flavor. Dependable plants produce as many as 15 fruits weighing up to 3 lbs (best harvested smaller). 0.25g (50-80 seeds)

---

## Long Purple

Type: EGGPLANT  
Catalog Number: 45103  
Barcode: 754917804052

75 days. Long, slender purple fruits with slightly bulbous ends. Best harvested when 1" in diameter. Can be sliced like a cucumber! 0.25g (50-80 seeds)

---

## Rosita

Type: EGGPLANT  
Catalog Number: 45203  
Barcode: 754917804724

70-80 days. Heirloom from Puerto Rico. Excellent yields of lavender-pink teardrop shaped fruits. Flesh is mild and sweet and the skin is tender with no bitterness. 0.25g (50-80 seeds)

---

## Louisiana Long Green (Green Banana)

Type: EGGPLANT  
Catalog Number: 45301  
Barcode: 754917800498

75 days. Attractive 7-10" light green, banana-shaped fruits. Spineless plants average 42" tall. 0.25g (50-80 seeds)

---

## Listada De Gandia

Type: EGGPLANT  
Catalog Number: 45401  
Barcode: 754917804083

75 days. Heirloom. Egg shaped 5-6" purple fruits with irregular white stripes. Great flavor. Thin skin doesn't require peeling. Heat and drought-tolerant. 0.25g (50-80 seeds)

---

## Rosa Bianca

Type: EGGPLANT  
Catalog Number: 45402  
Barcode: 754917804090

83 days. Italian Heirloom. Attractive pink-purple irregular stripes on a creamy white base. 4-5" fruits with prize-winning creamy flavor. 0.25g (50-80 seeds)

---

## California Wonder

Type: PEPPER, SWEET (BELL)

Catalog Number: 46102

Barcode: 754917804113

75 days. Heirloom. Tobacco mosaic-resistant selection. Smooth, blocky, mostly 4-lobed, thick walled 6-oz. bells. Ripens green to red. 0.3g (≈40 seeds)

---

## Sweet Chocolate (Choco)

Type: PEPPER, SWEET (BELL)

Catalog Number: 46103

Barcode: 754917804120

86 days. Medium sized, shiny bells. Extremely productive and disease resistant. Stake for best production. Ripens green to chocolate brown. 0.3g (60 seeds)

---

## Golden Cal Wonder

Type: PEPPER, SWEET (BELL)

Catalog Number: 46105

Barcode: 754917804137

72 days. Thick-walled, golden-when-ripe fruits average 4" x 5". Widely adapted; performs well in the Mid-Atlantic. Ripens green to gold. 0.3g (≈40 seeds)

---

## Keystone Resistant Giant

Type: PEPPER, SWEET (BELL)

Catalog Number: 46106

Barcode: 754917804779

79 days. Large, blocky, pendant fruits (4" x 4-3/4"). Heavy foliage and thick stems, resistant to breakage, sun scald and Mosaic virus. Ripens green to red. 0.3g (≈40 seeds)

---

## World Beater (Ruby Giant)

Type: PEPPER, SWEET (BELL)

Catalog Number: 46108

Barcode: 754917804588

72 days. Tall plants produce very large, blocky, non-tapering fruits. Thick fleshed and very sweet after turning red. Ripens green to red. 0.3g (≈50 seeds)

---

## Yellow Belle

Type: PEPPER, SWEET (BELL)

Catalog Number: 46109

Barcode: 754917800924

65 days. Mostly four-lobed, 2½ × 3 in., thick flesh, borne erect on the plant. Heavy foliage, compact growth, and very attractive. A first-class salad pepper, very reliable and heavily productive. 0.3g (≈60 seeds)

---

## Marconi

Type: PEPPER, SWEET (BELL)

Catalog Number: 46110

Barcode: 754917804144

80 days. Heirloom. Very sweet 7" horn shaped, thin-walled fruits. Great for frying, drying, or eating fresh. Fabulous yields, heat tolerant. Ripens green to red. 0.3g (36-48 seeds)

---

## Sweet Banana (Long Sweet Hungarian)

Type: PEPPER, SWEET

Catalog Number: 46111

Barcode: 754917804861

70 days. Introduced 1941. Heavy yields of attractive, banana-shaped 6" peppers. Great for colorful salads, frying or freezing. Ripens green to red. 0.3g (≈40 seeds)

---

## Hungarian Paprika

Type: PEPPER, SPICE

Catalog Number: 46117

Barcode: 754917804984

70 days. Excellent color and sweet, spicy flavor. 18" plants produce an abundance of 1" x 5" fruits. Sweet, dry flesh is ideal for drying. Grind dried fruits for a superb paprika seasoning. Ripens green to red. 0.3g (≈65 seeds)

---

## Orange Bell

Type: PEPPER, SWEET (BELL)

Catalog Number: 46120

Barcode: 754917804168

100 days. Large, thick-walled, sweet bells. Quality and flavor are the best of any orange bell we've grown. 3-1½" x 4" fruits. Ripens green to orange. 0.3g (≈50 seeds)

---

## Jimmy Nardello's Italian

Type: PEPPER, SWEET/DRYING

Catalog Number: 46122

Barcode: 754917804175

75 days. Heirloom. Multi-dimensionally sweet and intensely flavorful. Multi-purpose banana-shaped peppers 5-8" long. Ripens green to crimson red. 0.3g (≈65 seeds)

---

## Feherozon

Type: PEPPER, SWEET (BELL)

Catalog Number: 46124

Barcode: 754917800566

55 days. Extra-early, large Hungarian wax. Excellent for container gardens, early crops, and short-season areas. Ripens cream to orange to red. 0.3g (≈60 seeds)

---

## Doe Hill Golden Bell

Type: PEPPER, SWEET

Catalog Number: 46126

Barcode: 754917804182

Heirloom. High yielding, 24" plants are widely adapted, disease resistant and early bearing. Bright orange, flat shaped bells, 1" x 2-1/4". Ripens green to orange. 0.3g (≈50 seeds)

---

## Ashe County Pimento

Type: PEPPER, SWEET

Catalog Number: 46136

Barcode: 754917800580

70 days. Heirloom. Incredibly sweet, bright red, thick-fleshed pimento pepper measuring 4" across. Great raw, as well as for cooking, roasting, and canning. Reliable and productive. Ripens green to red. 0.3g (≈50 seeds)

---

## Purple Beauty

Type: PEPPER, SWEET (BELL)

Catalog Number: 46140

Barcode: 754917801471

80 days. Medium sized bells, 3" x 3", thick flesh, good foliage cover. Compact plants are mosaic resistant. On their way to deep red, the peppers stop and linger at a dark purple color. 0.3g (≈50 seeds)

---

## Anaheim Chile

Type: PEPPER, HOT  
Catalog Number: 46501  
Barcode: 754917804199

77 days. Heirloom. A versatile mild hot pepper used fresh, canned, fried or dried. 6 to 8" pendant fruits on productive, vigorous plants. Ripens green to deep red. 0.3g (~40 seeds)

---

## Cayenne, Long Red

Type: PEPPER, HOT  
Catalog Number: 46504  
Barcode: 754917804205

72 days. Heirloom, 1827. A choice, fiery-red hot seasoning pepper. Use fresh or dried, especially in salsa or chili. Pendant fruits 3/4" x 5-6". Ripens green to red. 0.3g (~40 seeds)

---

## Habanero

Type: PEPPER, HOT  
Catalog Number: 46506  
Barcode: 754917804212

95 days. Aromatic, flavorful, powerfully hot pepper used in Caribbean sauces. Requires a long warm growing season. Slow to germinate. Ripens green to orange-red. 0.2g (~40 seeds)

---

## Jalapeño

Type: PEPPER, HOT  
Catalog Number: 46508  
Barcode: 754917804229

72 days. The classic salsa chile. Small, hot, thick-walled peppers usually harvested green, but can be left to mature to red. Chipotles are smoked red jalapenos. 0.3g (~40 seeds)

---

## Serrano Tampiqueno

Type: PEPPER, HOT  
Catalog Number: 46512  
Barcode: 754917800597

75 days. Attractive 30" plants with thin-walled, flavorful fruit. Ideal for chili sauce, salsa, hot pepper vinegar, and pickling. Very hot whether green or red. Dries easily. Ripens green to orange to red-orange. 0.2g (~48 seeds)

---

## Chinese Five-Color

Type: PEPPER, HOT  
Catalog Number: 46517  
Barcode: 754917800603

70-90 days. Heirloom. An arresting ornamental with hot, fiery fruits. Green foliage with purple veins. 48" tall plants bear upright conical fruits  $\frac{3}{4}$ " x  $1\frac{1}{2}$ ". Ripens purple to cream to yellow to orange to red. 0.2g (~65 seeds)

---

## Fish

Type: PEPPER, HOT  
Catalog Number: 46518  
Barcode: 754917800733

55 days. African-American heirloom. Very hot. Turns variegated green-white to red. Beautiful choice for edible landscapes. Traditionally used in shellfish and fish cookery, or for drying. 0.25g (~45 seeds)

---

## Cayenne, Carolina

Type: PEPPER, HOT  
Catalog Number: 46521  
Barcode: 754917801501

70 days. (green > red) [1986, Clemson U. & USDA] 2-3 times more hot than regular Cayennes! Heavy yields of 1 x 5 in. fruits, larger than most Cayenne peppers. Excellent nematode resistance. 3 ft. plants. 0.3g (~36 seeds)

---

## Aji Chinchi Amarillo

Type: PEPPER, HOT (C. baccatum)  
Catalog Number: 46526  
Barcode: 754917809804

(C. baccatum) 59 days. (green > golden orange-yellow) [introduced by SESE 2018.] Fruity, flavorful, with medium-high heat. A heavy yielder and a favorite in our 2016 pepper taste test. A key ingredient in Peruvian cuisine. 0.3g (36-60 seeds)

---

## Jaloro Jalapeño

Type: PEPPER, HOT  
Catalog Number: 46529  
Barcode: 754917809828

65 days. (yellow > orange > red) [1992, Texas A&M.] Big yields of colorful yellow hot peppers, one of the best in our 2018 jalapeño trials.  $1\frac{1}{2}$  x 2 in. fruits, juicy with thick walls. Medium hot, milder than regular Jalapeño. Good container variety. 0.3g

---

## Aji Dulce

Type: PEPPER, SPICE  
Catalog Number: 46601  
Barcode: 754917804250

111 days. Venezuelan heirloom. Similar to Habanero, but without the heat. Flavor is sweet, spicy, and complex. Fruits ripen from green to orange-red to red. 0.2g (~50 seeds)

---

## Cossack Pineapple

Type: GROUND CHERRIES  
Catalog Number: 47101  
Barcode: 754917804267

60 days. Yellow 1/2" berries so tasty that they may never make it into the kitchen! Pineapple-like flavor excellent in salads as well as preserves and dessert toppings. Short 12-18" bushy plants. 0.06g. (90-110 seeds)

---

## Garden Huckleberry

Type: SOLANUM  
Catalog Number: 47201  
Barcode: 754917809682

100 days. A great fruit for jam, pies, and syrup. Not sweet on it's own. Heavy yields of easy-to-pick berries are dull black at full maturity. Green fruits are likely toxic and should not be consumed. 0.09 g (~100 seeds)

---

## Tomate Verde

Type: TOMATILLO  
Catalog Number: 48102  
Barcode: 754917804281

75 days. The classic tomatillo for salsa verde. Pale yellow-green 1-1/2" berries have a unique sweet-sour flavor. Papery husks are easy to remove. Tall, 4-6' plants are best staked, caged, or pruned. 0.09g (90-140 seeds)

---

## Cisineros Grande

Type: TOMATILLO  
Catalog Number: 48104  
Barcode: 754917804298

80-85 days. The largest tomatillo! Fruits range in size from a small lime to a summer apple. Most ripen yellow, some green. Harvest when the husks dry for a sweet, fruity flavor. 0.09g (90-140 seeds)

---

## Purple

## South Anna Butternut

Type: SQUASH, WINTER (*C. moschata*)

Catalog Number: 53621

Barcode: 754917809675

A new Downy Mildew resistant butternut with a rich sweet flavor. Can be planted late, allowing for later harvests that will keep better into the winter and spring. 3g (~23 seeds).

---

## Luffa

Type: GOURD, CULINARY

Catalog Number: 54501

Barcode: 754917805424

Heirloom. 65 for edible fruits; 150 days for sponges. Young fruits are eaten like okra throughout the South. Mature gourds can be made into "luffa" sponges. Tall, easy-to-grow vines. 3g (≈20 seeds)

---

## Cucuzzi (Zuchetta, Guinea Bean)

Type: GOURD, CULINARY

Catalog Number: 54503

Barcode: 754917809798

(Lagenaria siceraria) 60 days. [Italian heirloom, grown by Jefferson at Monticello.] Pale green fruits up to 36 in. long, for best tenderness harvest at 6-12 in. Sprawling vines up to 20 feet long, bug-resistant. A great zucchini substitute. 3g (20 seeds)

---

## Crimson Sweet

Type: WATERMELON

Catalog Number: 55101

Barcode: 754917805264

85 days. AAS winner. Amazingly sweet green-striped 23-27lb. melons on vigorous, disease resistant, productive, sprawling vines. 2g (≈23 seeds)

---

## Amish Moon And Stars

Type: WATERMELON

Catalog Number: 55103

Barcode: 754917805554

100 days. Heirloom. Outstanding flavor. Sweeter than most watermelons. Fruits have large yellow moon & small stars covering a dark green oblong rind. Foliage is starred as well. 2g (≈20 seeds)

---

## Moon and Stars, Yellow Fleshed

Type: WATERMELON

Catalog Number: 55106

Barcode: 754917805271

90 days. Heirloom. Sweetest of the Moon and Stars varieties. Medium-sized fruits with distinctive yellow flesh. Rinds marked by small yellow stars and the occasional larger moon. 15 to 35 pounds. 2g (≈20 seeds)

---

## Strawberry

Type: WATERMELON  
Catalog Number: 55110  
Barcode: 754917805288

85 days. Excellent garden variety with strawberry-red flesh ripening close to rind. Delicate texture, sweet flavor. 15-25 lb. dark green fruits with few seeds. 2g (~30 seeds)

---

## Sugar Baby

Type: WATERMELON  
Catalog Number: 55111  
Barcode: 754917805295

77 days. Space saving, icebox sized, 6-10 lb. melons with red flesh and small seeds. Hard rind turns green-black when ripe. Consistently reliable and widely adapted. 2g (~48 seeds)

---

## Stone Mountain

Type: WATERMELON  
Catalog Number: 55117  
Barcode: 754917801518

Heirloom 1923. Slightly oval 30-lb fruits with a dark green rind and sweet, juicy red flesh. Thick, split-resistant rind makes it great for shipping and storage. 2g (~23 seeds)

---

## Early Moonbeam

Type: WATERMELON, YELLOW  
Catalog Number: 55123  
Barcode: 754917800696

76 days. Sweet, crisp yellow icebox melon, 5-8 lbs. Thin, light green rind. Short vines make this a great melon for small gardens. 2g (~45 seeds)

---

## Magenta Magic

Type: ORACH  
Catalog Number: 59101  
Barcode: 754917805301

Deepest, darkest red orach available. Tender and slightly spicy addition to mixed greens when picked young. Holds flavor even as plants mature. 0.5g (~60 seeds).

---

## Chicory, Catalogna

Type: GREENS

Catalog Number: 61501

Barcode: 754917806391

55 days. Well known upright Italian chicory has green, deeply cut leaves on 16" tall plants. 0.5g (≈375 seeds)

---

## Black-Seeded Simpson

Type: LETTUCE, LOOSELEAF

Catalog Number: 62102

Barcode: 754917806025

49 days. Heirloom. Green loose-leaf. One of the fastest-maturing lettuces. Best for early spring plantings. 0.5g (≈500 seeds)

---

## Deer Tongue (Matchless)

Type: LETTUCE, LOOSELEAF

Catalog Number: 62103

Barcode: 754917806414

54 days. Upright, loose heads with sweet flavor and crisp texture. Slightly savoyed, triangular, round-tipped leaves with a succulent mid-rib. Moderate bolt resistance. 0.5g (≈500 seeds)

---

## Red Sails

Type: LETTUCE, LOOSELEAF

Catalog Number: 62107

Barcode: 754917806346

45 days. Early producer with crinkled, maroon-red leaves whose color intensifies as it matures. Slow to get bitter for a red lettuce. 0.5g (≈400 seeds)

---

## Thai Oakleaf (Thai 88)

Type: LETTUCE, LOOSELEAF

Catalog Number: 62110

Barcode: 754917806063

39 days. Excellent quality lettuce in high heat. Tight clusters of large, tender oakleaf-shaped leaves. Moderately slow to bolt. Distinctive, almond-like flavor. 0.5g (≈500 seeds)

---

## Sweet Valentine

Type: LETTUCE, ROMAINE  
Catalog Number: 62112  
Barcode: 754917806070

55 days. Sweetest lettuce we offer. Heads hold long into the heat without bolting. Deep-red leaves are slightly smaller than other varieties. 0.5g (≈400 seeds)

---

## Red Salad Bowl

Type: LETTUCE, LOOSELEAF  
Catalog Number: 62301  
Barcode: 754917806087

55 days. Big beautiful wine-red plants. Large, loose-leaf lettuce with long frilly leaves in a rosette. Tolerant to heat and tip-burn. One head makes a salad. Excellent fall variety. 0.5g (≈400 seeds)

---

## Buttercrunch

Type: LETTUCE, BIBB (BUTTERHEAD)  
Catalog Number: 62302  
Barcode: 754917806094

55 days. Versatile, heat-tolerant lettuce. Sweet, dark green leaves, compact heads, holds well under stress. 0.5g (≈500 seeds)

---

## Capitan

Type: LETTUCE, BIBB (BUTTERHEAD)  
Catalog Number: 62303  
Barcode: 754917806100

62 days. Excellent heat and cold tolerance plus resistance to lettuce mosaic virus. 5-oz loose light green heads with nice buttery flavor. 0.5g (≈500 seeds)

---

## Tom Thumb

Type: LETTUCE, BIBB (BUTTERHEAD)  
Catalog Number: 62307  
Barcode: 754917800887

48 days. Heirloom [Pre-1850.] Space-saving miniature butterhead. Apple-sized head can be used whole in individual salads. Tender leaves are medium-green and crumpled. Popular in some restaurants. 0.5g (400-600 seeds)

---

## Yugoslavian Red Butterhead

Type: LETTUCE, BIBB (BUTTERHEAD)

Catalog Number: 62308

Barcode: 754917806339

58 days. Heirloom. Attractive, red-tinged leaves around creamy yellow-green interior. Succulent, buttery flavor. 0.5g (~500 seeds)

---

## Speckled Bibb

Type: LETTUCE, BIBB (BUTTERHEAD)

Catalog Number: 62309

Barcode: 754917806353

43 days. Heirloom. An excellent tasting lettuce for any season. Attractive light green and red-spotted leaves from crispy, heat and cold tolerant heads. 0.5g (~500 seeds)

---

## Salad Bowl

Type: LETTUCE, LOOSELEAF

Catalog Number: 62502

Barcode: 754917806117-1

40 days. AAS winner. Large, loose-leaf lettuce with long frilly leaves in a rosette. Tolerant to heat and tip-burn. One head makes a salad. 0.5g (~500 seeds)

---

## Sierra

Type: LETTUCE, BATAVIAN/CRISPHEAD

Catalog Number: 62503

Barcode: 754917806438

54 days. Great for all seasons. Holds up under high heat, and grows fast in cool weather. Glossy green leaves with reddish veins grow in open fashion then form heads. Tasty, crisp, and juicy. 0.5g (~500 seeds)

---

## Tennis Ball

Type: LETTUCE, BATAVIAN/CRISPHEAD

Catalog Number: 62505

Barcode: 754917806124

Heirloom grown by Thomas Jefferson. Reintroduced black-seeded lettuce produces medium-sized Boston-type heads of light green leaves. Best grown in spring. 0.5g (~500 seeds)

---

## Anuenue

Type: LETTUCE, BATAVIAN/CRISPHEAD  
Catalog Number: 62506  
Barcode: 754917806131

50 days. Hawaiian word for "rainbow". Seed can germinate at high soil temp. Glossy green leaves. Heat-tolerant and bolt-resistant. Recommended for all seasons. 0.5g (≈500 seeds)

---

## Cosmo

Type: LETTUCE, ROMAINE  
Catalog Number: 62701  
Barcode: 754917806148

55 days. 12" heads of broad, vibrant green, savoyed leaves that are crisp and sweet. Stays bitter-free longer than many varieties. One of our favorites. 0.5g (≈500 seeds)

---

## Parris Island Cos

Type: LETTUCE, ROMAINE  
Catalog Number: 62702  
Barcode: 754917806155

68 days. Slightly savoyed leaves with creamy white hearts. 10-12" heads, good tipburn and bolting resistance. 0.5g (≈500 seeds)

---

## Jericho

Type: LETTUCE, ROMAINE  
Catalog Number: 62706  
Barcode: 754917806162

60 days. Bred for desert heat, Jericho thrives in hot summers. Tall 24" heavy, light-green heads retain sweetness when other lettuces have gone bitter. Great for market. 0.5g (400-600 seeds)

---

## Rouge d'Hiver (Red Winter)

Type: LETTUCE, ROMAINE  
Catalog Number: 62707  
Barcode: 754917806179

62 days. Heirloom. Red-green leaves with deep red tips and good flavor. Semi-open heads. Best in cool weather. Overwinters well under row cover. 0.5g (≈500 seeds)

---

## Crawford

Type: LETTUCE, BIBB (BUTTERHEAD)

Catalog Number: 62710

Barcode: 754917809934

57 days. [TX heirloom, brought from OK by Marshall Crawford's family.] Famous for fast growth, great flavor, and heat resistance. Green bibb, slightly savoyed, with some red/brown on the leaf edges. 0.5 g (avg. 400 seeds)

---

## Drunken Woman

Type: LETTUCE, LOOSELEAF

Catalog Number: 62801

Barcode: 754917806186

55 days. Gorgeous bright green leaves with ruffled edges in deep bronze. Crisp texture and sweet taste. Slow to bolt. 0.5g (~500 seeds)

---

## Winter Density

Type: LETTUCE, BUTTERCOS

Catalog Number: 62802

Barcode: 754917806193

58 days. Characteristics of butterhead and romaine. Heads are compact, upright and tall (8"). High-quality lettuce with excellent cold and heat tolerance. 0.5g (~500 seeds)

---

## Bronze Arrow

Type: LETTUCE, LOOSELEAF

Catalog Number: 62803

Barcode: 754917806452

60 days. Heirloom. Very attractive, large oakleaf-shaped leaves tipped with reddish brown. High yields, cut and come again, slow to bolt, delicious flavor. 0.5g (400-625 seeds)

---

## Wild Garden Lettuce Mix

Type: LETTUCE, MIX

Catalog Number: 62951

Barcode: 754917806384

More than 60 different varieties of lettuce from Wild Garden Seeds. Lettuces of all colors, shapes, sizes and textures, all mixed for an instant salad garden! 0.5g (400-625 seeds)

---

## Sandwich Island Mammoth

Type: SALSIFY  
Catalog Number: 63101  
Barcode: 754917809972

120 days. [Pre-1900] Roots have an oyster-like flavor (some say scallop-like). Best harvested after frost, roots keep well in ground. Use stewed, baked, or in a cream sauce. 1 g (~60 seeds)

---

## Arugula

Type: GREENS  
Catalog Number: 64101  
Barcode: 754917806209

40 days. Distinctive, sharp, peppery leaves best harvested at 2-3". A nice accent for mixed salads. Larger leaves may be lightly steamed or used in soups. 1.5g (750 seeds)

---

## Texas Early Grano

Type: ONION, DRY BULB (SHORT DAY)  
Catalog Number: 66104  
Barcode: 754917806445

Texas Heirloom from 1933. "The Mother of All Sweet Onions". Vidalia type onion forms large top shaped bulbs, with soft white sweet mild flesh. (short day type) 1g (~225 seeds)

---

## Rossa di Milano

Type: ONION, DRY BULB  
Catalog Number: 66112  
Barcode: 754917809811

110 days. Italian heirloom onion with sweet white flesh and beautiful bright red/purple skins. These distinctively flattened barrel shaped onions store exceptionally well and make a tasty addition to any savory dish. 1g (~225 seeds)

---

## American Flag (Broad London)

Type: LEEK  
Catalog Number: 66401  
Barcode: 754917806216

130 days. Standard variety for home gardens. Stems average 1-1/2" x 8-10", well-blanching from the base upward. Delicate onion flavor. 1.5g (~550 seeds)

---

## King Sieg

Type: LEEK

Catalog Number: 66403

Barcode: 754917809835

84 days. OSSl variety [Stable cross of King Richard and Siegfried, from grower Beth Rathgorshek.] Short, thick shanks (3 x 6 in.) with blue-green leaves. Good variety for overwintering. 1g (~550 seeds)

---

## Evergreen Hardy White

Type: ONION, BUNCHING

Catalog Number: 66501

Barcode: 754917806223

60 days. Hardy white bunching onion highly resistant to freezing. May be left in the ground year-round. Resistant to thrips, smut, and pink root. Great for scallions. 1g (~450 seeds).

---

## Tokyo Long White

Type: ONION, BUNCHING

Catalog Number: 66505

Barcode: 754917809859-1

65-95 days. [Japanese heirloom] Slim white onions with upright blue-green tops that grow quickly up to 12 in. and can form clumps up to 8 inches. Tolerant of heat and some cold, for spring, summer and fall harvests. Excellent mild flavor. 1g (~450 seeds).

---

## Long Standing Bloomsdale

Type: SPINACH

Catalog Number: 67102

Barcode: 754917806230

45 days. Heirloom. Fully-crinkled dark green leaves. Most heat-tolerant variety we offer. Dependable and full-flavored. Can withstand winter lows up to 0°F. 3g (240 seeds)

---

## Winter Bloomsdale

Type: SPINACH

Catalog Number: 67103

Barcode: 754917806247

47 days. Heirloom. Adapted for late summer/early fall plantings and overwintering. Slow-bolting disease-resistant plants. Dark green, well-crinkled leaves. 3g (180 seeds)

---

## Beaujolais

Type: SPINACH

Catalog Number: 67108

Barcode: 754917809668

40 days. OSSl variety [Uprising Seeds] Beautiful and unique red-veined spinach, lovely in salads. Smooth, tender leaves. Bolts sooner in spring than Bloomsdale types. Good survival of winter freezes. 3g (≈300 seeds)

---

## Malabar, Red

Type: SPINACH, SUMMER

Catalog Number: 68301

Barcode: 754917806421

(Basella rubra) 70 days. Great summer substitute for spinach. Fleshy leaves, stems high in vitamins A and C. Excellent for salads, stir fries, and soups. Grows best with trellising. 1g (35 seeds)

---

## Burgundy

Type: OKRA

Catalog Number: 69101

Barcode: 754917806254

49 days. AAS winner. Deep red stems, veins, and pods. Narrow 5/8" spineless pods remain tender nearly to mature length of 7-1/2". Early, attractive, fine quality on 4' plants. 4g (≈70 seeds).

---

## Cajun Jewel

Type: OKRA

Catalog Number: 69102

Barcode: 754917806261

53 days. Heirloom. Favorite in Cajun country since the 1950s. Dwarf-type, spineless plants, 3-4' tall, produce early crop of tender 1" pods up to 7" long. Good flavor. 4g (70 seeds).

---

## Clemson Spineless

Type: OKRA

Catalog Number: 69103

Barcode: 754917806278

56 days. Heirloom. Spineless for easy picking. Medium-sized, ribbed pods (1-1/4" x 8") best harvested at 3" or smaller. 4-5' plants with few side-branches. 4g (≈70 seeds).

---

## Evertender

Type: OKRA  
Catalog Number: 69104  
Barcode: 754917800894

50 days. This un-branched, spineless variety from India averages 5-1/2' tall and produces mature pods to 7" long. Easy to harvest, and pods remain tender for long period. 4g (80-100 seeds)

---

## Burmese

Type: OKRA  
Catalog Number: 69109  
Barcode: 754917806292

58 days. Heirloom. Plants bear at 18" and continue until frost. Less gooey, virtually spineless light green pods stay tender and sweet to 9-12". Huge 16" leaves. 4g (65 seeds).

---

## Hill Country Heirloom Red

Type: OKRA  
Catalog Number: 69111  
Barcode: 754917806308

70 days. Heirloom. Abundant, flavorful 3" green pods with reddish tips and ribs. Exceptional production when picked small, perfect for pickles. 4' tall, drought tolerant. 4g (~60 seeds)

---

## Bowling Red

Type: OKRA  
Catalog Number: 69125  
Barcode: 754917800948

55 days. Heirloom, 1920s. Early, productive, and beautiful. One of the best okras in the Kerr Center's trial of 30 heirloom varieties. Long, slim, tender red pods. 7-8' plants have red stems and red-veined leaves. 4g (80-100 seeds)

---

## Basil, Cinnamon

Type: HERB  
Catalog Number: 71102  
Barcode: 754917807008

80 days. Spicy cinnamon fragrance. Use as a tea or potpourri. 0.25 g (80 seeds)

---

## Basil, Dark Opal

Type: HERB

Catalog Number: 71103

Barcode: 754917807374

Introduced by Univ. of Connecticut, about 1950.

Ornamental dark purple basil used like common basil for seasoning. May have a few green leaves. Beautiful on salads. 0.15g (100 seeds)

---

## Basil, Kapoor Tulsi (Holy Basil)

Type: HERB

Catalog Number: 71104

Barcode: 754917807015

95 days. Rare basil with a spicy scent of clove, lemon, and cinnamon. Grown outside holy sanctuaries in India. 18" Annual. 0.12g (≈200 seeds)

---

## Basil, Lemon

Type: HERB

Catalog Number: 71105

Barcode: 754917807022

80 days. Rare basil with deep lemon fragrance. Use for fish dishes, herb vinegars, and tea. 18" Annual. 0.12g (≈90 seeds)

---

## Basil, Sweet Genovese

Type: HERB

Catalog Number: 71107

Barcode: 754917807039

75 days. A select strain of large-leaf basil. Use fresh or dried for flavoring sauces, soups, dressings, and pesto. Our most popular basil. 18" Annual. 0.2g (≈110 seeds)

---

## Basil, Bolloso Napoletano

Type: HERB

Catalog Number: 71111

Barcode: 754917800702

Heirloom. Highly prized for its strong flavor. Giant ruffled 6" leaves are great for pesto. Vigorous 3' plants are pest-resistant and slow to flower. 0.15g

---

## Basil, Sweet Thai

Type: HERB

Catalog Number: 71112

Barcode: 754917800719

Spicy flavor reminiscent of anise and cloves goes well in curries and many other Asian dishes. Purple stems and flowers contrast attractively with the 2" green leaves. 12-18" plants. 0.18g (100 seeds)

---

## Anise-Hyssop

Type: HERB

Barcode: 754917807046

80 days. Used for potpourri and aromatic herbal tea. Excellent nectar plant for beekeepers. Attractive spires of lavender flowers. 12" Perennial 0.05g (~100 seeds)

---

## Borage

Type: HERB

Catalog Number: 71205

Barcode: 754917807053

80 days. Bright blue cucumber-flavored edible flowers. Cool season plants help attract bumble bee pollinators to your garden. 24"-36" Annual. 1g (~50 seeds)

---

## Calendula, Pacific Beauty

Type: HERB

Catalog Number: 71207

Barcode: 754917807404

85 days. 3" bright yellow-orange flowers. Many uses: food coloring, dyeing, saffron substitute, and anti-inflammatory. 18" Annual. 0.5g (~90 seeds)

---

## Catnip

Type: HERB

Catalog Number: 71210

Barcode: 754917807060

Use this mint for calming teas or for stimulating your cat. Traditionally used as a diaphoretic to treat fevers. 24-30" Perennial. 0.15g (~215 seeds)

---

## Chamomile, German

Type: HERB

Catalog Number: 71212

Barcode: 754917807077

24"-30" Annual. Sweet-scented flowers make tea with a distinctive apple-like fragrance. Used as a carminative and anti-inflammatory. Prefers full sun. 0.15g (≈1430 seeds)

---

## Chervil, Brussels Winter

Type: HERB

Catalog Number: 71213

Barcode: 754917807084

Excellent fresh for flavoring potatoes, eggs, and fish. Loses flavor when dried but can be preserved in butter. Best quality when grown in partial shade. 24" Annual. 1g (≈440 seeds)

---

## Chives

Type: HERB

Catalog Number: 71214

Barcode: 754917807091

80 days. Grow indoors or outdoors for year-round onion flavoring. Use chopped leaves and young flowers to add flavor and decorative garnish to salads. Perennial. 0.2g (≈180 seeds)

---

## Chives, Garlic

Type: HERB

Catalog Number: 71215

Barcode: 754917807107

80 days. Leaves are larger and flatter than other chives. Garlic flavor for salads and seasoning. Perennial. 0.7g (≈170 seeds)

---

## Cilantro (Coriander)

Type: HERB

Catalog Number: 71216

Barcode: 754917807114

30" Annual. Great kitchen herb for leaves (cilantro) and seeds (coriander). Seeds need cool temperatures to germinate. Self-sows in cool weather. Plant successions. 1g (≈90 seeds).

---

## Dill, Bouquet

Type: HERB

Catalog Number: 71221

Barcode: 754917807121

70 days. Annual. Good variety for both leaves and seeds, good for pickling. 36-48" tall. Space plants 6-12" apart. 0.75g (≈500 seeds)

---

## Dill, Long Island Mammoth

Type: HERB

Catalog Number: 71223

Barcode: 754917807138

70 days. Annual. The standard heirloom variety for flavoring pickles, soups, breads, stews, salads, and sauces. 36-48" tall. Space plants 6-12" apart. 0.75g (≈575 seeds)

---

## Echinacea Purpurea (Purple Coneflower)

Type: HERB

Catalog Number: 71224

Barcode: 754917807145

Perennial. Easier to grow than other echinacea, does not require stratification. Mostly purple flowers, also rose and lilac. 3-4' tall, space 1-2' apart. 0.2g (40 seeds)

---

## Fennel, Bronze

Type: HERB

Catalog Number: 71226

Barcode: 754917807169

36"-60". This decorative fennel has beautiful lacy bronze leaves. Useful as an ornamental as well as a culinary sweet fennel. Prefers full sun. 0.2g (≈75 seeds)

---

## Fennel, Florence

Type: HERB

Catalog Number: 71227

Barcode: 754917807428

Celery shaped leaves have a distinctively licorice flavor and can be blanched and used as a cooked vegetable. 1g (≈300 seeds)

---

## Feverfew

Type: HERB  
Catalog Number: 71228  
Barcode: 754917807176

(Remove flower heads before seed forms, otherwise annual). Small daisy-like blooms. Used medicinally as a vasodilator and anti-inflammatory. 30" Perennial. 0.1g (~800 seeds)

---

## Hyssop

Type: HERB  
Catalog Number: 71230  
Barcode: 754917800900

Hyssop is an ornamental shrubby herb used to season poultry. Medicinal: Hyssop tea flavored with honey is used as an expectorant. Collect the flowering tops in August and dry in the sun. 24 in. 0.1g (~90 seeds)

---

## Lemon Balm

Type: HERB  
Catalog Number: 71232  
Barcode: 754917807183

Try in teas as a lemon substitute or fresh in salads. Medicinally used as a sedative, calmative, carminative and for its anti-viral properties. 30" Perennial. 0.19g (~300 seeds)

---

## Marjoram, Sweet

Type: HERB  
Catalog Number: 71234  
Barcode: 754917807435

Resembles oregano in flavor though milder and with subtle overtones of balsam. Great dried or fresh in salads. Avoid overwatering. 0.05g (~300 seeds)

---

## Mint

Type: HERB  
Catalog Number: 71235  
Barcode: 754917807190

Perennial. Mint grown from seed does not come true. Plants vary in flavor from spearmint to menthol mint to peppermint. Select best plants for culinary use. 0.05g (~600 seeds)

---

## Oregano, Greek

Type: HERB

Catalog Number: 71237

Barcode: 754917807206

This is the flavorful Greek Oregano, not the flavorless oregano (*O. vulgare*) commonly available. An essential pizza spice. 12" Perennial. 0.05g (≈500 seeds)

---

## Rosemary

Type: HERB

Catalog Number: 71239
