

TOTAL BALANCE PREMIUM: THE ULTIMATE WOMEN'S SUPPLEMENT

Total Women's Health

Right now, our health, resilience and immunity is being challenged like never before, meaning foundational health - taking care of every part of our body - has never been so important.

That's why our customers have been depending on the potent blend of over 90 specialty nutrients in Total Balance Women's Premium.

It uses natural ingredients to support the heart, immunity, digestion, and skin, along with support for PMS and menopause.

Find out how Total Balance Women's Premium can help you (or your partner) protect your strength, stamina and wellness with strong foundational health.

Since 2018, I started with Total Balance Women's Premium as it is a comprehensive formula. When I read that it supports cell health, hormonal support, discomfort and mood swings. I knew this was for me. **I can feel the boost of energy /overall support and recommend it to any women.**

Jaime Q

I tried Xtend-Life's Total Balance Women's Premium and have noticed a huge difference in the first 3 months of taking it. I sleep well at night and can get through the day with a decent level of energy. I am a Type 1 diabetic and have a compromised immune system but taking these, I feel healthy enough to fight any cold and infections. **Thank you Xtend-Life.**
