

9000CJ

AUTOMATIC JEWELRY STEAM CLEANER

PRODUCT SPECIFICATIONS

THE POWER OF STEAM

The 9000CJ provides continuous steam for an unlimited amount of time when it's hooked up to a direct water line or with the available 2 gallon water container. There's no more down time waiting for the boiler to re-pressurize. The 9000CJ is the perfect choice for environments that require large volumes of uninterrupted steam.

WHY CLEAN WITH STEAM?

The only ingredient required for the 9000CJ is water. Cleaning has never been safer, healthier or more environmentally friendly.

FEATURES

- Reset thermostat
