PRODUCT SPECIFICATION SHEET

HEEVE 2.1M PORTABLE ALUMINIUM TRISCOPE WHEELCHAIR RAMPS

PRODUCT DESCRIPTION

The Heeve Portable Aluminum Telescopic Wheelchair Ramp is the ideal aid for helping people to get in and out of their vehicles. It can also be used as an aid on flat surfaces, such as stairs and platforms.

This wheelchair ramp is a 3-piece, 2.1-metre-long folding mobility aid and has a maximum load capacity of 272 kg/pair.

The ramp has a carry handle and a retractable feature for easy transportation and storage. It can be folded down to 97cm when not in use.

Made from durable aluminium with stainless steel clip locks to stop at any desired level, this ramp is perfect for those who need an extra hand when getting into their vehicle.
