

BEST WATER TRAMPOLINE BUYER'S GUIDE

A dark, atmospheric photograph of a water park at dusk or night. Several large, inflatable water trampolines are floating on the water. People are seen jumping and playing on the trampolines, with some in mid-air. The scene is dimly lit, with the primary light source being the ambient light of the twilight sky.

Are you thinking of buying a
**Water Trampoline
or Water Bouncer?**

Aren't sure which one to get?

Consider this the first step on your quest for
maximum fun!

SUMMER FUN

1.

When talking about summer fun, can you think of a more fun way to spend your time on the lake than with a water trampoline?

You can get wet and wild with one of the most fun and inventive products on the water. The biggest bonus is that they are safe, long-lasting, and don't need to cost a fortune.

When making a purchase, there are a lot more options available than you may think.

We are going to show you some of the best water trampoline and best water bouncers so that you can maximize your summer fun. If you want to know about some of the fun games that you can play on [water trampolines](#) and [water bouncers](#) checkout this article.

Island Hopper Water Trampolines and Water Bouncers

2.

Island Hopper first got into the inflatable water sports business when they were the first to introduce the world-famous banana boat tubes.

Since then they have expanded their selection and have been designing and manufacturing high-quality floating trampolines and water bouncers for over 20 years.

A FIRST-CLASS PRODUCT

They have continued their innovative ways in developing the Turtle Jump Water Trampoline.

This is a fun water trampoline that has all the features of their other models but looks like a large turtle.

Island Hopper water trampolines have even been used in the America's Cup as markers!

In addition to their water trampolines, they also offer the excellent Island Hopper [Bounce N Splash Water Bouncer](#) that the kids can also enjoy.

Island Hopper Water Trampolines:

- [Acrobat](#)
- [Giant Jump](#)

Once you have decided between a water trampoline and a water bouncer, there are also great attachments that you can add on to up the ante on the fun!

With over 30 years in the inflatable water sports game, you can buy with confidence knowing that you are getting a first-class product with an Island Hopper water trampoline or water bouncer.

Rave Sports Floating Water Trampolines and Water Bouncers

3.

The [Rave Aqua Jump Eclipse Water Trampoline](#) is a very high quality and highly rated floating water trampoline.

It has been designed to have a much quicker setup time than other water trampolines and has an increased useable space on its surface area.

Safety is another key feature that has been built into the design so that you can enjoy your fun without fear of accidents.

The only water trampoline on the market that does not feature a metal frame.

- ✓ Removing the metal frame allows for a larger jump surface.
- ✓ The jump surface of Rave water trampolines is about 30% larger than competitors.
- ✓ The limited lifetime warranty of this water trampoline means that it is in it for the long haul.

Available in 12ft, 15ft, and 20ft models
