

What is a Lillipad Boat Diving Board?

LilliPad Diving Boards (Style: 1001-UM, 1002-SM) are the world's only diving board specifically designed for mounting on a boat.

Is the Lillipad Boat Diving Board for pontoon boats or all boats?

LilliPad Diving Boards can be installed on nearly any boat 18 feet in length or larger with a solid, flat surface for installation. Popular boats include pontoons, houseboats, yachts, and cabin cruisers with integrated swim platforms.

Will this put too much stress on my boat?

LilliPad's Innovation Award Winning design cancels the energy of the jumper by counteracting the force within the framework of the diving board. The result? Exciting spring-action for the jumper, gentle wave-action for the remaining boaters, and no spilled drinks from the boat rocking!

Can adults and kids use the Lillipad Boat Diving Board?

LilliPad Diving Boards are designed for use by children and adults up to a maximum weight of 250 pounds. The diving board is designed with a pin that can be adjusted to strengthen the spring for heavier or lighter users.

I like it, but is it safe and will it stand the test of time?

LilliPad Diving Boards are built to last. Designed with heavy wall aluminum extrusion, stainless steel hardware, and urethane spring components, corrosion and component failure is absolutely minimal. In addition, LilliPad Diving Boards offer traction materials and an adjustable stabilizer rail for safe jumping.

Will this affect my ability to dock my boat?

LilliPad Diving Boards are designed with a quick release pin which allows the board to drop down along the side of the boat while not in use.

I like it, but is it easy to install?

Yes, the Lillipad Boat Diving Board is very easy to install! We can send you easy to follow step by step video directions that will make installing the diving board a breeze
