Assembly

Step 1 - Unpack the greenhouse, confirm that you have all the parts listed.

Step 2 - Build the frame as per Figure 1. Ensure the steel rods are fully inserted into the plastic connectors.

Step 3 - Unfold the PE greenhouse cover (Part 08) and place over assembled frame as per Figure 2. Be careful not to stretch or tear the cover. Secure cover to frame with the ties attached to the inside of cover. The roll-up zip doors can also be secured open with the attached ties if desired.

Step 4 - Place the greenhouse over your Greenlife 1800 x 900 x 450 garden bed or in a suitable location. You should choose a sheltered location, avoiding areas exposed to high winds and heavy rain. You may wish to secure the greenhouse in place with stakes or ties (not included).
