### Assembly

**Step 1** - Unpack the greenhouse, confirm that you have all the parts listed.

**Step 2** - Build the frame as per Figure 1. Ensure the steel rods are fully inserted into the plastic connectors.

**Step 3** - Unfold the PE greenhouse cover (Part 07) and place over assembled frame. Be careful not to stretch or tear the cover. Secure cover to frame with the ties attached to the inside of cover. The roll-up zip door can also be secured open with the attached ties if desired.

**Step 4** - Place the greenhouse over your Greenlife 800 x 500 x 300 garden bed with base or in a suitable location. You should choose a sheltered location, avoiding areas exposed to high winds and heavy rain. You may wish to secure the greenhouse in place with stakes or ties (not included).
