

15" Plastic Enclosures with Brush Cover - p/n 80-1500-BR

DataComm Electronics' Plastic Enclosures are designed to provide options and flexibility for meeting your digital and analog communication needs. The ABS construction allows you to access the full reach of your wireless network by reducing interference with Wi-Fi signals. The added feature of a cable passthrough section allows you to route bulk wire out of the passthrough and into a rack.

Features

- Made of ABS plastic
- Protects cables from punctures
- Service loops and call backs become more manageable
- Universal hole pattern allows for most standard modules to be installed
- Surface or flush mountable (additional parts needed for surface mounting)
- Includes 2 knockouts for single gang J-Box power module (Part #: 80-0050)
- ABS construction reduces interference with Wi-Fi signals
- Enclosures conform to UL Standard 2416, CAN/CSA STD C22.2 No. 60950-7-07 and are ETL Listed.
