## AMERICAN BUTTON MACHINES

## **Mirror Back Button Instructions**

1.Place the shell, graphic, then mylar into the pickup die.

2. Rotate the die table fully clockwise.

3. Press the handle all the way down, then raise it all the way up.

4.Place the collet (sharp side up), mirror (reflective side down), then bent shim and place into the crimp die.

5.Rotate the die table fully counterclockwise.

6.Press the handle all the way down, then all the way up.

7. Rotate the die table clockwise then remove the finished mirror button.
