

THE FUTURE OF GREEN CLEANING PERFORMANCE FROM O'DELL.

BIOFIBER IS THE PERFECT DISPOSABLE DUSTING SHEET FOR YOUR GREEN CLEANING PROGRAM.

Electrostatically charged mop fibers draw and lock in dust and dirt, a powerful weapon against cross contamination in health care environments.

BioFiber Mop Sheets deliver twice the pick up efficiency of the leading sweeper brand.

Improves indoor air quality in all spaces including: hospitals, office buildings, classrooms and retail venues.

Utilizes specially formulated, very long and densely flowing fiber technology across entire mop face.

Used sheets can be safely disposed or used in traditional composting methods, greatly reducing potential landfill waste.

The product is independently tested and proven for biodegradability in accordance with ASTM D6400-99 standard.

BioFiber[®]
by O'Dell

BIOFIBER ADVANTAGES:

- Disposable
- Biodegradable
- Extremely efficient
- Economical
- Easy to use
- Operator-friendly, lightweight
- Microscopic pick up

Wire loaded multiple sheets allow continuous use

1. Place 1-4 BioFiber sheets on floor

Unlike regular push down frames

2. Squeeze and lift metal spring

Sponge allows for better particle pick up on rougher surfaces

3. Fold sheets onto frame

4. Lower metal spring release and gently push under rim of frame

Aluminum handle telescopes from 40" to 60"

5. Start your dusting route. When a sheet is fully used simply take it off and start with a fresh sheet.

BioFiber is an environmentally preferable dry cleaning tool that provides solutions to many of your green cleaning challenges. BioFiber is disposable and biodegradable, so it eliminates the need for costly laundering. What's more, it is extremely effective in removing dust and dirt particles in a dry application, reducing the need for water and chemicals even further. Its lightweight design greatly diminishes worker fatigue, increases efficiency and thus reduces facility maintenance labor costs.

The disposable sheets can be stacked and loaded onto our spring lock frames for quick removal of soiled sheets to expose the clean sheet underneath. The user can continue to work instead of spending valuable time reloading the tool. BioFiber is also compatible with more commonly found pinch point style dusting frames. Take advantage of an effective, cost saving, disposable, biodegradable cleaning product without the negative environmental impact – BioFiber.

ITEM CODE	DESCRIPTION	CASE PACK
BF248	8 x 24" biofiber sheets	200
BF100	100 sheet Biofiber roll	4
SCF244	4 x 24" padded spring clip frame	6
SCF484	4 x 48" padded spring clip frame	6
TH-BF60	40-60" telescopic handle	6
