

EC Series

LOOPED END MOPS

PRODUCT DATA SHEET

TYPICAL APPLICATIONS: RESTAURANT AND CLEAN ROOM

DESCRIPTION

This nonwoven material is designed to meet the various levels of cleanroom (Class 1000) applications for lint reduction. It is also ideal for food service environments requiring mildew proof cleaning products. Also hospitals controlling infectious disease, oil and hazardous chemical spills. The unique synthetic web strand construction combines the strength and wearability of twisted polyester and nylon fibers. Liquid and particulate pickup and retention are enhanced by the nonwoven orientation of the fibers. The spiral formed construction provides regions into which fluids will flow by capillary action and surface tension. Linting and shredding are virtually nonexistent. These unique fibers are mildew resistant and fast drying.

PRODUCT SPECS

O'Dell Item	Size	Weight (lbs)	Headband	Tailband Spread	Working Mop Length	Total Mop Length
EC910L	Medium	0.75	1.25" Poly Tape	29"	18"	36"

PACKAGING SPECS

O'Dell Item	Case Pack Qty	Case Weight (lbs)	Case Dimensions	Case Cube
EC910L	12	10.0	19.7 x 12 x 9.5	0.98
EC911L	12	13.5	20 x 12 x 12	1.45
EC912L	12	18.0	24 x 13.5 x 13.3	1.67

Note: Each mop is individually polybagged.

DIRECTIONS FOR USE

Remove mop from polybag and attach to either a jaws or quick change mop handle. Submerge mop into prepared cleaning solution to fully saturate. Wring mop to desired level or saturation and begin mopping using a figure eight motion. When mop becomes too dry or soiled before completing the area then disposing and replacing with clean solution will be necessary.

PRODUCT CARE

Thoroughly rinse. Avoid long term exposure to harsh chemicals and abrasive surfaces. After every use thoroughly rinse and ring out mop. Store mops by hanging in a warm, dry ventilated room.
