

# Edge BW Series

**CUT END MOPS**

**PRODUCT DATA SHEET**

**TYPICAL APPLICATIONS: INDUSTRIAL, INSTITUTIONAL & COMMERCIAL**

## DESCRIPTION

Produced from 100% post industrial material - the new Edge Mop is made from recycled rayon / synthetic nonwoven edge trim. Compared to cotton, this material exhibits 70% greater absorption and 68% greater liquid release, giving the same cleaning results with less yarn fiber. The Edge mop is more economical than cotton, will not unravel, leaves less lint, and requires no break-in time. The Edge mop is ideal for wax stripping, disinfecting, quick spill pick-up, and general purpose cleaning. Made in the USA.

<b>CUT END MOPS</b>	<b>PRODUCT DATA SHEET</b>
<b>DIRECTIONS FOR USE</b>	
<p>Remove mop from polybag and attach to either a jaws or quick change mop handle. Submerge mop into prepared cleaning solution to fully saturate. Wring mop to desired level or saturation and begin mopping using a figure eight motion. When mop becomes too dry or soiled before completing the area then disposing and replacing with clean solution will be necessary.</p>	
<b>PRODUCT CARE</b>	
<p>Thoroughly rinse. Avoid long term exposure to harsh chemicals and abrasive surfaces. After every use wash and ring out mop. Store mops by hanging in a warm, dry ventilated room.</p>	
<b>ADDITIONAL OPTIONS</b>	
<p>Wide Band, Industrial Flat, Twist On, Scrub Pad, Looped End</p>
