

The Perfect Mop for High Traffic Areas

Flip Mop

A microfiber pad that has a spun loop side (gray) for wet mopping, and a chenille side (blue) for drying.

The Flip Mop is designed to wet mop the floor, and flip easily to the chenille side to dry the floor, reducing the risk of potential slips and falls.

*Certified as a High-Traction Item by the National Floor Safety Institute

- Certified as a High-Traction item by the National Floor Safety Institute
- Reduced floor drying time
- Launderable over 300 times
- Lowers the risk of potential slips and falls
- Industrial grade zipper will not rust
- Chenille drying side is 26% more absorbent than traditional microfiber
