

Spun Loop Microfiber Wet Pad

MICROFIBER WET MOPS

PRODUCT DATA SHEET

TYPICAL APPLICATIONS: GENERAL MAINTENANCE

DESCRIPTION

100% Split microfiber spun loop wet mops offer a high loop pile that gives higher absorption than woven pads. They clean uneven surfaces better, and the loops capture large particles. The high loop pile also gives greater saturation to insure proper dwell times for cleaning chemicals. Durable up to 500 washes (200 with chlorine bleach). Allows you to clean more floor space with one pad. Available in 18" hook and loop or pocket backing, and 12" hook and loop backing.

PRODUCT SPECS

O'Dell Item	Size	Weight (lbs)	Backing	Total Length x Width
SLM185	5 x 18	.35	Hook and loop	20 x 7
