

Telescopic Handle

MICROFIBER HARDWARE

PRODUCT DATA SHEET

TYPICAL APPLICATIONS: WET MOPPING

DESCRIPTION

Lockable telescopic handle is made of lightweight yet durable aluminum. Extends from 34 to 60 inches, and offers comfort grips for easy operation, reducing worker fatigue. Attaches easily to aluminum frames, biofiber frames, and pocket frames.

O'Dell Item	Case Pack	Case Weight (lbs)	Case Dimensions	Case Cube
TH-BF60	6	5.38	34.5 x 6.13 x 4	0.49

DIRECTIONS FOR USE

Loosen compression collar and twist handle counter clockwise to loosen. Adjust to proper length, typically from the floor to the user's chin, and turn clockwise to tighten handle. Then tighten compression collar. Snap on desired color ring. Simply slide frame connector into the handle, and attach chosen frame to chosen pad. Mop with a leading edge motion.

AVAILABLE OPTIONS

Comes with Color rings.
