

THE FUTURE OF GREEN CLEANING PERFORMANCE FROM O'DELL

INDUSTRIAL FLOOR CARE TOOLS FOR THE ENVIRONMENTALLY CONSCIOUS COMPANY

ENERGY

O'Dell's main facility is 100% Green Power supplied, and we are an EPA Green Power Partner.

CARBON FOOTPRINT

In 2008, O'Dell became the first in our industry to be certified as a Carbon Neutral manufacturer by the Cleaning Industry Climate Initiative (CICI), and Leonardo Academy's Cleaner & Greener program.

RECYCLING

Manufacturing by-products – we recycle corrugated, plastic, paper, and textiles.

TAKE BACK PROGRAM

Closed-Loop recycling for customers – O'Dell sponsors the Rewind® Mop Recycling Program, through which used O'Dell products can be returned to be recycled into new textile products.

RESPONSIBLE FOREST MANAGEMENT

In 1995, O'Dell established a 1,000 acre tree farm, certified under Mead Westvaco's CFM Program and the Sustainable Forestry Initiative Program.

PACKAGING

O'Dell uses only non-petroleum, corn-based PLA film in our process where available. PLA film is biodegradable & compostable.

ENVIRONMENTAL CLIMATE CHANGE INITIATIVES

O'Dell recycled 69 tons of cardboard in 2007— enough to save 1,300 trees.

Annually, we recycle 50,000 lbs of plastic and 100,000 lbs of textile waste.

Our tree farm removes 3,600 tons of CO2 and produces 4,000 tons of oxygen annually, enough for 16,200 people.

10 acres of enhanced wetlands have produced thousands of waterfowl and provided habitat for numerous other species of wildlife.
