

# Sensoronics SPO2 Sensors

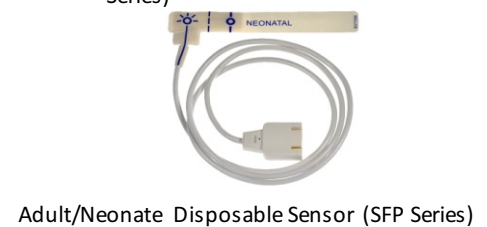

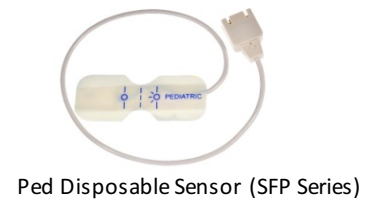

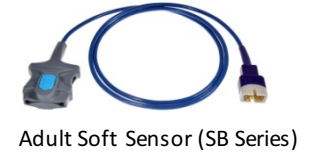

## Reusable and Disposable Applications

- ➔ Adult and pediatric finger clips feature ambient light shielding as well as ergonomic design for maximum patient comfort
- ➔ Silicone soft sensors are designed as an easier to clean and flexible , more comfortable alternative to the standard finger clip.
- ➔ Disposable foam SPO2 sensors are available in Adult, Pediatric, Infant, and Adult/ Neonate models
- ➔ All sensors are FDA approved and are manufactured to CE and ISO 9000 standards
- ➔ All products are latex free
- ➔ Compatible with most manufacturers
