Textiles – Wallpapers – Accessories

Our human nature is like a great house full of rooms: there is a hall which everyone passes through, there is the drawing room to receive formal visits, the sitting room where one comes and goes as they please and beyond that, far beyond indeed, are other rooms, the handles of whose doors are never turned. A space called the Boudoir, the inner-most room where the soul dares to sit alone. The epitome of enlightenment space for the private mind.

In an extraordinary collaboration with artists and designers, we created some irresistible designs to bring this beauty of personal and intimate appeal to your projects.

Artist collaborations:

Franziska Born lives and works in Zurich, Switzerland. She runs her own business developing products and projects for clothing and interiors, spatial applications and costume design. Throughout the wide spectrum of disciplines and media that she uses, Franziska Born pursues a particular interest in ‘appearance and reality’. She is also undertaking profound research into materials and the use of colour.

Roland Schär is a visual artist and designer born in Zurich, Switzerland. He studied art history in Zurich and Paris and painting in Toulouse, France. His work has been shown in many exhibitions in Europe and Asia in public institutions and private galleries. Schär’s work shows the reminiscence of landscapes seen and materials observed: rhythms, colours and textures are combined in a game of proportions. The shapes of the colours meet and connect from side to side of the wallpaper in a free and spontaneous painting movement.

Moiré is a Zurich based Graphic Design Studio founded in 2000 by Marc Kappeler, Simon Trüb and Dominik Huber. They work in the fields of editorial design, visual identity and type design. For the last few years Moiré was designing various projects for museums, architects and magazines from London to Moscow.
